SECTION I: DORMITORY AUTHORITY INVESTMENT POLICY AND GUIDELINES IN EFFECT AS OF MARCH 31, 2016

I. SCOPE

The Investment Policy and Guidelines (the “Investment Policy”) applies to the investment of all moneys on DASNY’s behalf or by DASNY on behalf of any entity or individual, including funds held by a trustee under financing documents authorized by the Board.

II. DELEGATION OF AUTHORITY

The Board shall review and approve the Investment Policy at least annually. The Board may modify the Investment Policy at any time.

The Board’s responsibility for administration of the investment program is delegated to DASNY’s Office of Finance, which shall establish written procedures for the operation of the investment program consistent with this Investment Policy. These responsibilities shall include the evaluation of the investment program by monitoring the system of internal controls, verifying relevant matters related to the securities purchased or held as collateral at least semiannually and on an unscheduled basis, determining that the investment results are consistent with the Board’s objectives and reviewing any independent audits of the investment program.

III. PRUDENCE

The Board and management of DASNY and others responsible for making investment decisions for DASNY shall make such decisions with the judgment, care, skill, prudence and diligence, under the circumstances then prevailing, that a knowledgeable and prudent investor acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.

All participants involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions.

IV. INVESTMENT PROGRAM OBJECTIVES

The primary objectives of DASNY’s investment program, in conformity with all applicable federal, state, and other legal requirements, including any applicable bond resolution (legal), are, in priority order, to:

- A. adequately safeguard principal (safety);

- B. provide sufficient liquidity to meet the purposes for which the funds are being held (liquidity);
- C. obtain a reasonable rate of return, subject to any applicable requirements imposed by Federal Tax Law (yield); and
- D. maintain procedures that allow for diversification of investment firms used by DASNY and to ensure opportunity for participation by minority and women owned investment firms in investment activity by DASNY and in the activities of investment firms engaged by DASNY to manage or invest funds under the supervision of DASNY.

V. DIVERSIFICATION

It is the policy of DASNY to monitor the diversification of its investments by financial institution, investment instrument, and maturity; and to provide quarterly reports of such diversification levels to the Board. However, given that clients are often responsible for the selection of financial institutions to which investments are directed, permitted investments are defined in bond resolutions and at times may be client directed, and maturities are determined based upon estimated cash flow requirements which are typically short term; standard diversification thresholds are not practicable. A maximum of approximately 50% of all investments may be held in a single bank.

VI. INTERNAL CONTROLS

The Office of Finance is responsible for establishing and maintaining an internal control structure designed to ensure that investments are made in accordance with this Investment Policy; are protected from loss, theft or misuse; and that transactions are recorded properly.

The organizational structure of DASNY's Office of Finance will provide for a separation of duties between the authorization of investments transactions, the execution of investment transactions and the accounting for investments. The Board shall, by separate Resolution, designate those officers and employees of DASNY that are authorized to approve and execute investment transactions.

VII. SELECTION OF INVESTMENT FIRMS

The Office of Finance shall maintain a list of approved investment firms which may serve as trustee, custodian or broker-dealer, however, any resolution authorizing a series of bonds, or any supplement thereto, may permit the consideration of banks and brokers not on such list, if appropriate under the circumstances, provided that such banks and brokers meet the criteria specified in this Investment Policy.

Any criteria listed herein may be in addition to the requirements of any bond resolution pertaining to the funds to be invested under such bond resolution. The Treasurer may modify the list of approved trustees, custodians and broker-dealers at any time as deemed appropriate; and based on the nature of the investment transaction may establish limits on the types and amounts

of investments that can be made with each trustee or custodian or executed with each broker-dealer.
