## I. Introduction

The Dormitory Authority of the State of New York (DASNY) is a public benefit corporation that was established in 1944 under the laws of the State of New York (the State) to finance and build dormitories at State teachers' colleges to house soldiers returning from World War II and attending college under the GI Bill.

DASNY works in financing and constructing infrastructure for a variety of clients, including New York State and certain not-for-profit healthcare and higher education institutions as well as certain other not-for-profit institutions. It works on behalf of public and private clients to issue low-cost, tax-exempt bonds that play a critical role in helping New York State, and its healthcare and higher education institutions meet their capital needs so they can expand their resources and focus their attention and resources on service delivery.

It also performs construction management for public sector clients for scientific, life sciences and medical laboratories, academic centers and residence halls, hospitals, and other types of projects. Its work helps foster economic growth and supports entities that strengthen communities and make New York a better place to live, work and learn.

This report, along with DASNY's report to the Authorities Budget Office on operations and accomplishments, provides information on the important work DASNY delivers every year on behalf of the People of the State of New York.

## II. Scope

Section 2879 of the Public Authorities Law requires DASNY to annually prepare, approve and submit to DASNY's Board a report on procurement contracts, which shall include DASNY's Procurement Policy and Guidelines, with an explanation of any amendments thereto since the previous annual report (the "Report" or "DASNY's Procurement Contract Annual Report").

The Report includes all original procurements made by DASNY by contract, purchase order, or other written agreement, with a value of \$5,000 or more. This Report excludes certain non-contractual and other obligations of DASNY, including reimbursement of expenses paid to private institutions, grants, insurance settlements, fees paid to state regulatory agencies, land purchases, and payroll and fringe benefits. This Report also excludes amendments and change orders to original procurements.

This Report covers the period commencing April 1, 2024, and ending March 31, 2025 (the "Reporting Period"). Unless otherwise specified, all figures presented in the Executive Summary are for the Reporting Period. The Report lists detailed information on all DASNY contracts existing on April 1 of the Reporting Period and those awarded during the Reporting Period.

The Report also includes DASNY's Procurement Policy and Guidelines. The Procurement Policy and Procurement Contract Guidelines describe the policies and procedures of DASNY regarding the use, award, monitoring, and reporting of procurement contracts.

### III. Procurement Executive Summary

Note: Due to rounding, some table totals may not add up to exactly 100%.

The following summarizes DASNY's procurement activity across four broad areas:

## **IV. Minority - and Women-Owned Business Enterprises (MWBEs) and Service-Disabled Veteran-Owned Businesses (SDVOBs)**

MWBE and SDVOB contract participation is central to DASNY's mission to create inclusive communities. DASNY consistently takes steps to expand opportunities for these businesses by integrating participation requirements into every contract discussion and offering training, resources, and guidance to support their continued access, growth, and success.

For the Reporting Period, DASNY estimates total MWBE participation, including subcontractors, as approximately 34.57% of expenditures, representing a value of approximately \$199.8 million. In the same period, estimated total SDVOB participation, including subcontractors, accounted for approximately 4.34% of expenditures, representing a value of approximately \$25.1 million.

The following tables are provided to summarize original Procurement Contracts awarded to Prime MWBEs and SDVOBs during the Reporting Period:

- Table 1. Total Procurement Contracts Awarded to Prime MWBEs and SDVOBs

Each table are further categorized by a) Business line, b) Procurement Method, and c) MWBE/SDVOB type.

Further information is available in DASNY's Operations and Accomplishments report to the Authorities Budget Office.

## V. Construction and Client Services Awards

DASNY's Construction Division is responsible for the largest amount of spending at DASNY. Because of the complex nature and scale of many DASNY projects, any project may require numerous Procurement Contracts secured through a variety of procurement methodologies to provide planning, design, construction, and equipment and furniture fit out before completion.

**Table 4. Construction and Client Services Awards by Procurement Method - Combined**

## Awards by Client Program

DASNY provides construction services to and makes purchases on behalf of a variety of clients statewide.

**Table 6. Construction and Client Services Awards by Client Program**

Table 6 summarizes, by client program, the dollar value of Professional Services Contracts, Construction Contracts, and Purchase Orders that DASNY awarded during the Reporting Period.

## Professional Services

Professional services are services of a consulting, technical, and professional nature and include such services as architecture, engineering, construction management, and construction manager and pre-construction services on (CM) at risk and CM-Build contracts whereby the construction manager holds the construction contracts.

DASNY primarily uses two types of contracts to engage professional services providers:

1. Project-specific contracts

Project-specific, professional service contracts are procured and awarded through a qualification-based, request-for-proposal (RFP) process.

2. Professional Services Term Contracts

Professional Services Term Contracts are zero-dollar-based, competitively procured, professional-services contracts issued for a specified period, usually a four-year term. The specific scope of work and location where the services are to be provided are added to the contract via a work authorization. Professional services provided under term contracts include architectural design, engineering, testing, asbestos abatement design, and other specialized professional services.

The term contracting structure allows DASNY to quickly mobilize consultants to advance design and construction projects, promoting DASNY's ability to efficiently deliver for its clients.

**Table 7. Professional Service Project-Specific Awards by Type of Service**

Table 7 summarizes, by broad service category, the dollar value and number of all project-specific professional service contracts DASNY awarded during the Reporting Period (i.e., excludes term contracts discussed above).

## Construction

Construction contracts are contracts for the phases of construction, such as site work, general construction, and the building trades (structural; plumbing; electrical and mechanical; and heating, ventilating, and cooling). DASNY’s expansive capabilities and broad project portfolio result in a wide array of awards. DASNY primarily uses three types of contracts to engage construction contractors:

1. **Project-specific contracts:** Project-specific, construction contracts are generally awarded through a public, competitive bidding process.
2. **Job Order Contracts:** Job Order Contracts are term contracts set up regionally by trade. The initial term is typically one year with three one-year renewal options. Contractors competitively bid two adjustment factors (normal work hours and other than normal work hours) that will be applied to the unit prices in the JOC construction price books. The project limits for JOCs use are generally \$500,000 upstate and \$1,000,000 downstate. The specific scope of work and location where the services are to be provided are added to the contract via a job order. JOCs are a critical and effective contracting tool used to help DASNY achieve its construction mission. JOCs enable DASNY to rapidly engage contractors to perform construction services for emergencies, critical maintenance, and small-value projects.
3. **General Contractor Minor Maintenance :** General Contractor Minor Maintenance contracts are term contracts set up regionally. The initial term is typically two years with one two-year renewal option. The specific scope of work and location where the services are to be provided are added to the contract via a work order. Contractors competitively bid an agreed-upon markup percentage. GC Minor Maintenance projects are typically a single scope of work ranging in value from \$10,000 - \$80,000.

## Purchase Orders

Purchase orders are issued for the purchase of commodities of furniture and fixtures for buildings, such as residence hall and office furniture, medical equipment, computer equipment, and laboratory equipment.

DASNY primarily uses one method to procure commodities:

1. Project-specific purchase orders: Project-specific purchase orders are generally awarded through competitive quoting and bidding processes or using centralized government contracts.

### Table 10. Purchase Orders Awarded by Type of Service

Table 10 summarizes, by broad service categories, the dollar value and number of all project-specific purchase orders DASNY awarded during the Reporting Period.

## VI. Public Finance and Portfolio Monitoring, and Finance

For purposes of this analysis, DASNY's Public Finance and Portfolio Monitoring, and Finance Divisions are properly presented together because, in many instances, vendors and subject matter overlap. Most procurements relate to costs of issuance for DASNY's financing process. Procurements primarily include underwriting/remarketing, financial consulting, trustee and custodian fees, and printing.

### Table 11. Summary of Expenditures Public Finance and Portfolio Monitoring, and Finance
