I. Introduction

The Dormitory Authority of the State of New York (DASNY) is a public benefit corporation that was established in 1944 under the laws of the State of New York (the State) to finance and build dormitories at State teachers' colleges to house soldiers returning from World War II and attending college under the GI Bill.

DASNY works in financing and constructing infrastructure for a variety of clients, including New York State and certain not-for-profit healthcare and higher education institutions as well as certain other not-for-profit institutions. It works on behalf of public and private clients to issue low-cost, tax-exempt bonds that play a critical role in helping New York State, and its healthcare and higher education institutions meet their capital needs so they can expand their resources and focus their attention and resources on service delivery.

It also performs construction management for public sector clients for academic centers and residence halls, scientific, life sciences and medical laboratories, hospitals, and other types of projects. Its work helps foster economic growth and supports entities that strengthen communities and make New York a better place to live, work, and learn.

DASNY is the premier statewide organization for discretionary and competitive grant program administration in New York State, helping provide local governments, not-for-profits, colleges and universities critical resources to make NYS more affordable for New Yorkers. DASNY manages a multi-billion-dollar portfolio of grants for our Executive and Legislative stakeholders and the people of the State of New York. Payments administered to grantees are not represented in this Procurement Report.

This report, along with DASNY's report to the Authorities Budget Office on operations and accomplishments, provides information on the important work DASNY delivers every year on behalf of the People of the State of New York.

II. Scope

Section 2879 of the Public Authorities Law requires DASNY to annually prepare, approve and submit to DASNY's Board a report on procurement contracts, which shall include DASNY's Procurement Policy and Guidelines, with an explanation of any amendments thereto since the previous annual report (the "Report" or "DASNY's Procurement Contract Annual Report").

The Report includes all original procurements made by DASNY by contract, purchase order, or other written agreement, with a value of \$5,000 or more. It excludes certain non-contractual and other obligations, including reimbursements to private institutions, grants, insurance settlements, fees paid to state regulatory agencies, land purchases, and payroll and fringe benefits. Amendments and change orders to original procurements are excluded from this Report.

This Report covers the period commencing April 1, 2025, and ending March 31, 2026 (the "Reporting Period"). Unless otherwise noted, all figures presented relate to the Reporting Period.

The Report also includes DASNY's Procurement Policy and Guidelines, which is approved annually by the DASNY Board in accordance with Public Authorities Law Section 2879. The Procurement Policy and Guidelines describe the policies and procedures of DASNY regarding the use, award, monitoring, and reporting of procurement contracts.

Minor changes to DASNY's Procurement Policy and Guidelines were adopted by the Board on June 25, 2025. Revisions include:

- Addition of Public Authorities Law § 1678(29) Small Business or Minority or Women-Owned Business Enterprises Pilot Program and Reporting.
- Increase the threshold for Discretionary Contracts for Minority and Women-Owned Business Enterprises and Service-Disabled Veteran-Owned Business Enterprises up to \$1,500,000 and provide for new reporting requirements.
- Revise Executive Law Article 17-B to Veterans' Services Law Article 3.
- Minor clarifications resulting from a comprehensive rewrite in 2023.

The Procurement Policy and Guidelines that were approved by the Board on June 25, 2025, are included in this Procurement Report as Appendix B.

III. Procurement Executive Summary

Note: Due to rounding, some table totals may not add up to exactly 100%.

The following summarizes DASNY's procurement activity across four broad areas:

Area	\$ Awarded	% of Total \$ Awarded	# of Awards	% of Total # of Awarded
Design and Construction Services	\$736,940,072	92.7%	1617	83.5%
Public Finance and Portfolio Monitoring, and Finance	\$46,787,860	5.9%	93	4.8%

IV. Minority-Owned (MBE), Women-Owned (WBE), and/or Service-Disabled Veteran-Owned Businesses (SDVOBs)

MWBE and SDVOB contract participation is central to DASNY’s support of inclusive communities. DASNY consistently takes steps to expand opportunities for these businesses by integrating participation requirements into every contract discussion and offering training, resources, and guidance to support their continued access, growth, and success.

For the Reporting Period, DASNY estimates total MWBE participation, including subcontractors, as approximately 32.85% of expenditures, representing a value of approximately \$252.2 million. In the same period, estimated total SDVOB participation, including subcontractors, accounted for approximately 2.36% of expenditures, representing a value of approximately \$18.1 million.

The following tables are provided to summarize original procurement contracts awarded to Prime MWBEs and SDVOBs during the Reporting Period, and are included in the Executive Summary and other sections of this Report:

- Table 1. Procurement Contracts Awarded to Prime MBEs, WBEs, and/or SDVOBs
- Table 2. Discretionary Contracts Awarded to Prime MBEs, WBEs, and/or SDVOBs
- Table 3. Procurement Contracts Greater than \$500K Awarded to Prime MBEs, WBEs, and/or SDVOBs
- Table 4. Procurement Contracts for Set-Aside CUNY Community College Campuses

Each table is further categorized by a) Area, b) Procurement Method, and c) Diversity Type.

Further information is available in DASNY’s Operations and Accomplishments report to the Authorities Budget Office.

V. Design and Construction Services Awards

DASNY's Construction Division is responsible for the largest amount of spending at DASNY. Due to the complexity and scale of many DASNY projects, a single project may require multiple awards obtained through various procurement methods. These awards support all phases of project delivery, including planning, design, construction, and the procurement and installation of equipment and furnishings prior to project completion.

Professional Services

Professional services are services of consulting, technical, and professional nature and include such services as architecture, engineering, construction management, and construction manager and pre-construction services on CM-Build contracts whereby the construction manager holds the construction contracts.

DASNY primarily uses two types of contracts to engage professional services providers:

1. Project-specific contracts

Project-specific, professional service contracts are procured and awarded through a qualification-based, request-for-proposal (RFP) process.

2. Professional Services Term Contracts

Professional Services Term Contracts are zero-dollar-based, competitively procured, professional service contracts issued for a specified period, usually a four-year term. The specific scope of work and location where the services are to be provided are added to the contract via a work authorization. Professional services provided under term contracts include architectural design, engineering, testing, asbestos abatement design, and other specialized professional services.

The term contracting structure allows DASNY to quickly mobilize consultants to advance design and construction projects, promoting DASNY's ability to efficiently deliver for its clients.

Construction

Construction contracts are contracts for the phases of construction, such as site work, general construction, and the building trades (structural; plumbing; electrical and mechanical; and heating, ventilating, and cooling). DASNY's expansive capabilities and broad project portfolio result in a wide array of awards. DASNY primarily uses the following types of contracts to engage construction contractors:

1. **Project-specific contracts:** Project-specific construction contracts are generally awarded through a public, competitive bidding process.
2. **Job Order Contracts:** Job Order Contracts are term contracts set up regionally by trade. The initial term is typically one year with three one-year renewal options. Contractors competitively bid two adjustment factors (normal work hours and other than normal work hours) that will be applied to the unit prices in the JOC construction price books. The project limits for JOCs use are generally \$500,000 upstate and \$1,000,000 downstate. The specific scope of work and location where the services are to be provided are added to the contract through a job order. JOCs are a critical and effective contracting tool used to help DASNY achieve its construction mission. JOCs enable DASNY to rapidly engage contractors to perform construction services for emergencies, critical maintenance, and small-value projects.
3. **General Contractor Minor Maintenance:** General Contractor Minor Maintenance contracts are term contracts set up regionally. The initial term is typically two years with one two-year renewal option. The specific scope of work and location where the services are to be provided are added to the contract via a work order. Contractors competitively bid an agreed-upon markup percentage. GC Minor Maintenance projects are typically a single scope of work ranging in value from \$10,000 - \$80,000.
4. **Design Build:** Project-specific design and construction services are procured from a single entity under a single contract. Design Build services are procured through a qualification-based or best value process.
5. **Construction Manager Build:** Project specific contract utilizing a qualification-based selection of a construction management (CM) firm. The selected firm receives a contract for pre-construction services to allow them to be involved in the design phase of the project for value engineering. The selected firm bids and awards separate subcontractor packages for the trade labor and materials needed for the Project.

Purchase Orders

Purchase orders are issued for the purchase of commodities of furniture and fixtures for buildings, such as residence hall and office furniture, medical equipment, computer equipment, and laboratory equipment.

DASNY primarily uses one method to procure commodities:

1. Project-specific purchase orders: Project-specific purchase orders are generally awarded through competitive quoting and bidding processes or using centralized government contracts.

Table 11. Purchase Orders Awarded by Type of Service

Table 11 summarizes, by type of service, the project-specific purchase orders DASNY awarded during the Reporting Period.

VI. Public Finance and Portfolio Monitoring, and Finance

For purposes of this analysis, DASNY's Public Finance and Portfolio Monitoring, and Finance Divisions are properly presented together because, in many instances, vendors and subject matter overlap. Most procurements relate to costs of issuance for DASNY's financing process. Procurements primarily include underwriting/remarketing, financial consulting, trustee and custodian fees, and printing.

Table 12. Public Finance and Portfolio Monitoring, and Finance Awards by Type of Service

Table 12 summarizes, by type of service, the awards made for Public Finance and Portfolio Monitoring, and Finance during the Reporting Period.
