Market Conditions
The private placement was structured as a 3.72% fixed rate bond issue with a mandatory tender upon the expiration of 135 months from closing, unless extended by the Bank. The term of the bonds is 20 years. M&T Bank purchased all of the bonds. On the day of the sale, 10-year triple-A MMD fell one basis point to 2.01%, while the 30-year bond dipped two basis points to 2.90%. 20-year triple-A MMD fell three basis points to 2.61%. Treasury prices were higher on the day. The two-year and 10-year treasuries declined four basis points each, to 0.58% and 2.18%, respectively. The 30-year treasury decreased to 2.85% from 2.87%. Rate was based on M&T’s credit assessment.

Bond Sale Summary
Fiscal Year 2014-15

$61,815,000
Fordham University Revenue Bonds, Series 2014

Program: Independent Colleges & Universities
Purpose: New Money/Refunding

The Institution
The University is an independent, coeducational, nonsectarian, not-for-profit institution of higher education with campuses located in the Bronx and Lincoln Center in mid-town Manhattan.

Purpose of Issue
The Series 2014 Bonds were issued to refund all the outstanding DASNY-issued Fordham University Series 2004 bonds, as well as the acquisition of a commercial condominium unit located at 45 Columbus Avenue in New York.

Breakdown
New Money: $51,710,000
Refunding: $10,105,000

Trustee:
Bank of New York Mellon $2,000
Underwriter’s Discount $520,081
Verification Agent $1,500
Total $942,654

Market Conditions
A lack of new bonds in the market contributed to a very issuer friendly market, with underwriters able to price bonds at low yields. The triple-A Municipal Market Data scale ended on the day of pricing as much as six basis points lower. The two-year MMD decreased three basis points to 0.28%, the 10-year MMD decreased five basis points to 2.40%, and the 30-year MMD decreased five basis points to 3.73%.

The deal was structured with serial bonds maturing from 2015 to 2034 and term bonds maturing in 2039 and 2044. The original spreads to the triple-A MMD scale ranged from 12 basis points on the short end of the yield curve to 75 basis points on the longer end of the yield curve. The long bond, in 2044, went out with a yield of 4.43%, 65 basis points above MMD. The overall result was positive with oversubscriptions in all but the 2031 maturity. The most oversubscribed maturities were from 2019 to 2026, 2033, 2039, and 2044. The underwriter lowered yields in all maturities, except for the 2031 maturity. The final spreads to the triple-A MMD scale ranged from 10 basis points on the short end of the yield curve to 80 basis points above MMD. The Series 2014 Bonds had a TIC of 4.07%.

Bond Sale Summary

$61,815,000
Fordham University Revenue Bonds, Series 2014

Program: Independent Colleges & Universities
Purpose: New Money/Refunding

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.
Bond Sale Summary

$10,400,000
Great Neck Library Revenue Bonds, Series 2014

Market Conditions
Supply for the week was strong, in part because the following week was short due to the Thanksgiving holiday. November 2014 was expected to have supply of approximately $30 billion, well ahead of November 2013 supply of $23 billion. Munis yields ended unchanged on the short and long end of the scale and slightly weaker at midrange on the day of pricing. 10-year MMD fell two basis points to 2.18% while the 30-year MMD was unchanged at 3.10%. Treasuries were mixed, with the two-year note yield off one basis point to 0.53%, while the 10-year was unchanged at 2.32% and the 30-year lost one basis point to 3.05%. Heading into the pricing, the Underwriter was optimistic with the municipal market quiet and yields holding steady. The Bonds were priced as serial bonds with maturities ranging from 2015 to 2029 and term bonds due in 2031 and 2034. The serials were originally priced at nine basis points above triple-A MMD on the short end and 65 basis points on the long end and the 2031 and 2034 term bonds were originally priced at 73 and 80 basis points above MMD, respectively. Following a morning order period all maturities except 2016 and 2026 were subscribed for, with the highest oversubscription being the 2019 and 2023 maturities. The majority of maturities on the short and long end were less than 2 times oversubscribed. Final pricing adjusted the 2016 maturity up two basis points and decreased 2018 through 2025 one to three basis points. All other maturities remained unchanged. The issue had an all-in-TIC of 3.32%.

Financing Timeline

Days to Market

**Market Conditions**
The Municipal Market was relatively unchanged the day of the pricing as the 30-year MMD increased by one basis point to 3.51% and the 10-year MMD remained at 2.33%. Treasuries held steady as the 30-year yield and the 10-year benchmark were unchanged at 3.49% and 2.64%, respectively. The IAC transaction consisted of one series of bonds with two sub-series - one taxable and one tax-exempt. The taxable subseries consisted of a two-year taxable term bond. The tax-exempt subseries consisted of serials from 2015 to 2024 with three term bonds - one in 2029, one in 2034 and one in 2039. The 2014 Bonds were a pooled borrowing for four IAC participants and were rated Aa3 by Moody’s. The transaction had a fair amount of demand from investors and the underwriter placed all of the bonds with investors; no bonds were taken into inventory. The 2039 term bond yielded a 4.14%, a 71 basis point spread to the commensurate AAA MMD maturity. A TIC of 3.19% was achieved for the combined Series 2014A-1 & A-2 Bonds.

InterAgency Council Pooled Loan Program Revenue Bonds,
Series 2014 (Subseries 2014A-1 $12,385,000 and Subseries 2014A-2 - $585,000)
Program: Other Independent Institutions  Purpose: New Money/Refinancing

Performance Metrics

Days to Market
Goal: 150-180 Days  Actual Days to Market: 139 Days

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.
Bond Sale Summary

$29,290,000

InterAgency Council Pooled Loan Program Revenue Bonds, Series 2015 (Subseries 2015A-1 $28,115,000 and Subseries 2015A-2 - $1,175,000)

Program: Other Independent Institutions
Purpose: New Money/Refinancing

The Institution
The organization is a not-for-profit membership organization voluntarily supported by 130 not-for-profit service provider agencies that conduct business primarily in the City of New York metropolitan area, but also throughout the State.

Market Conditions
The Municipal Market saw yields increase on the day of the pricing amidst heavy volume as more than $4.5 billion of new issues were priced. The 10-year MMD increased by four basis points to yield a 1.80%, while the 30-year MMD rose by five basis points to yield a 2.59%. Treasury yields also rose with the 10-year yield increasing by four basis points and the 30-year yield increasing by two basis points to yield a 1.84% and 2.42%, respectively. The IAC transaction consisted of one series of bonds, with two sub-series, one taxable and one tax-exempt. The taxable subseries consisted of a one-year taxable term bond. The tax-exempt subseries consisted of serials from 2015 to 2025 with one term bond in 2029. The Series 2015 Bonds were a pooled borrowing for nine IAC participants and were rated Aa2 by Moody’s. The transaction had a fair amount of demand from investors and the underwriter placed all of the bonds with

#### Market Conditions

The Series 2014 Bonds were privately placed with First Republic Bank. The private placement was structured as a 20-year, tax-exempt, fixed rate issuance with a final maturity on July 1, 2034. The interest rate on the bonds was set at 2.59% on October 23rd, five days prior to closing. Rate was based on 65% of the sum of 20-year Treasury rate plus 125 basis points. The tax-exempt market was weaker on the day of pricing due to the softening Treasury market. The 10-year MMD yield increased two basis points to 2.05% while the 30-year yield increased four basis points to 2.99%.

### Market Conditions

The Municipal Market was slightly weaker on the day of the pricing with several large transactions coming to market. Municipal yields rose across the curve with the 10-year MMD increasing by two basis points and the 30-year MMD increasing by three basis points, respectively. The Treasury market also weakened with the 10-year yield increasing by six basis points and the 30-year yield increasing by three basis points, respectively. The transaction consisted of one series of tax-exempt bonds with serials from 2017 to 2032 and one term bond in 2036. The bonds were rated A3, A- and A- by Moody’s, Standard and Poor’s and Fitch, respectively. Traders indicated that there was a lot of interest in the new supply and this transaction was no exception as it was well received by investors allowing for favorable adjustments. Yields were lowered by seven to ten basis points in the 2017, 2018, 2020, 2022, 2023, 2025, 2026, 2031 and 2032 maturities. In the 2019, 2027, 2028 and 2030 maturities, yields were lowered between three to five basis points. The 2021 and 2036 maturities were lowered by 12 and 13 basis points, respectively. The underwriter commented that NYU Hospitals Center’s name recognition brought a lot of interest to the deal.

Market Conditions
The Municipal Market was slightly weaker on the day of the pricing as the bond market finished off the last of this week’s larger transactions. Municipal yields rose across the curve with the 10-year MMD increasing by two basis points and the 30-year MMD increasing by four basis points to yield a 1.91% and 2.71%, respectively. The Treasury market also weakened with the 10-year yield increasing by six basis points and the 30-year yield increasing by eight basis points to yield a 2.02% and 2.60%, respectively. The transaction consisted of one series of tax-exempt bonds with serials from 2015 to 2030 and one additional serial bond in 2035. The transaction also had one term bond in 2034. The bonds were rated A3, A- and A- by Moody’s, Standard and Poor’s and Fitch, respectively. Traders indicated that outright yield levels were very low and that the supply and demand imbalance that drove last years’ strong muni performance is still in place. The transaction was well received by investors allowing for favorable adjustments. Yields were lowered by two to five basis points in the 2016, 2019, 2026, 2027, 2028, 2029, 2030 and 2034 maturities. In the 2017, 2018, 2020, 2023 and 2024 maturities, yields were lowered between six and nine basis points. In the 2021 and 2022 maturities, yields were lowered by 12 and 13 basis points, respectively. The underwriter commented that NYU Hospitals Center’s name recognition brought a lot of interest to the deal.

Goal: 90-120 Days
Actual Days to Market: 70 Days

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period. The transaction was fairly priced.
Bond Sale Summary
Fiscal Year 2014-15

$1,157,335,000

Personal Income Tax Revenue Bonds (General Purpose), Series 2014C ($1,075,950,000) and Series 2014D ($81,385,000)

Program: Personal Income Tax

Purpose: New Money

The Program
The State Personal Income Tax Bonds are issued as a financing vehicle for a broad range of state-supported financing programs.

Purpose of Issue
The Series 2014C Bonds were issued to finance or reimburse all or a portion of the costs of programs and projects throughout the State, including capital projects for educational facilities, a longitudinal data system, environmental facilities projects and grants for educational, healthcare and economic development programs, and to refund certain outstanding DASNY-issued Upstate Community College Revenue Bonds, Series 2004 and Series 2004B. The Series 2014D Bonds were issued to finance certain other educational facilities projects, health care program grants and certain required State matching contributions made through the Water Pollution Control Revolving Fund.

Bond Allocation – Series 2014E&F

Bond Allocation – Series 2014G

Market Conditions - Tax-Exempts
The two weeks prior to DASNY’s sale had the highest municipal volume of the year, with approximately $26 billion of supply. Due to a strong Treasury market and good reception of transactions over the prior two weeks, MMD yields adjusted downward, with 10-year MMD 10 basis points lower to 1.98% on December 12 and 30-year MMD 11 basis points lower to 2.88%. Both the Treasury and municipal markets benefited from lower oil prices, slow-down in Europe and China, lower ruble and stock market losses.

One of the recent sales was the ESD Personal Income Tax competitive issue sold on Tuesday, December 2, which consisted of $926 million Series 2014A tax-exempt bonds and $371 million Series 2014B taxable bonds. A good portion of the longer ESD Series 2014A bonds and many of the Series 2014B bonds were still unsold going into the week of December 15.

On Monday morning, December 15, Treasury prices fell with mixed economic news and concern about any policy changes to be announced at the conclusion of the Federal Reserve Open Market Committee meeting on Tuesday and Wednesday. Approximately $280 million of the Series 2014E bonds were offered to retail, with various couponing structures.

All of the $24 million Series 2014F bonds were offered to retail, with yields for comparable coupons from 10 basis points wider than the Series 2014E bonds.

The retail orders totaled $76.3 million for the Series 2014E and $8.3 million for the Series 2014F, for a combined total of $84.6 million. None of the maturities of the Series 2014E were oversubscribed, but few maturities in the much smaller Series 2014F were modestly oversubscribed. The most support was in the 2023 maturity of the Series 2014E.

Bond Sale Summary

$550,210,000

Personal Income Tax Revenue Bonds (General Purpose), Series 2014E ($468,290,000), Series 2014F ($26,095,000) and Series 2014G ($55,825,000)

Program: Personal Income Tax

Purpose: New Money/Refunding

Going into the institutional order period on Tuesday morning, both the Treasury and municipal market were stronger as the increase in the Russian interest rate to 17% failed to stem the decline in the ruble. Investors were feeling nervous at year end amid volatility in oil prices, currency markets and the stock market, Russian turbulence and concern regarding the upcoming Fed statement. The stronger market enabled the preliminary pricing on the longer Series 2014E bonds with 5% coupons to remain at the retail level of 35 basis points spread to MMD, despite institutional reads at 40 basis points or over. All maturities with 5% coupon were adjusted for the one basis point increase in Monday’s MMD. Additional 4% coupons were offered in 2034 and 2039 to diversify the bonds offered. The Series 2014F bonds were offered at the same levels, except lower coupons were created and all yields were adjusted to the one basis point increase in MMD.

A total of $488 million institutional orders were received on the Series 2014E bonds. The only maturities oversubscribed by 2 to 3 times were 2035, 2039 with the 4% coupon and 2044. In addition, there were unsold balances of $57 million. Given the market volatility and unsold balances, no price adjustments were made, and BAML agreed to underwrite the unsold balances.

A total $6.7 million of institutional orders were received on the Series 2014F bonds, which was not surprising due to the extraordinary mandatory call provision and small block sizes. There were unsold balances of $12 million. Four of the maturities with lower coupons were converted to 5% at spreads of 55 over MMD. No other changes were made, and BAML agreed to underwrite the balances with the rest of the syndicate.

Market Conditions - Taxables

The $56 million taxable Series 2014G bonds were also priced on Tuesday, December 16. The Series 2014G bonds were offered at par with coupons of 2.20% in 2020, 2.50% in 2021 and 2.70% in 2022. Spreads to off-the-run Treasuries of 62 basis points in 2020, 72 basis points in 2021 and 85 basis points in 2022 were comparable to the spreads on the ESD competitive sale on December 2. However, only $7.5 million of priority orders were received. After the order period, BAML increased yields by 20 basis points in 2020, 20 basis points in 2021 and 15 basis points in 2022. With those changes, there was still a balance of $12 million in 2020 while the 2021 and 2022 maturities were just subscribed for. BAML attributed the lack of demand to the sell-off in the corporate bond market, the maturity range not appealing to short or long investors, relatively low absolute yields and unsold bonds from the ESD transaction.

DASNY met the Division of Budget’s timeline for pricing and closing.

Pricing

DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.

Market Conditions
DASNY priced its Personal Income Tax Revenue Bonds, Series 2015A for retail on Tuesday, January 6 and institutions on Wednesday, January 7. The Treasury market and municipal market had performed very well in the prior week and leading up to the January 6 retail pricing because of low oil prices, weak economic conditions in Europe with signs of possible deflation and the developing situation in Greece. After a hiatus for the holidays, the week of January 5 was showing a calendar of $4.2 billion, smaller than the $6.0 billion weekly average for 2014. The DASNY issue was the largest on the municipal new issuance calendar for the week. The market was very strong on January 6, with oil prices falling below $50 per barrel, weaker economic data, such as the December ISM and factory orders, and the Dow Jones falling 130 points by close of the day. The 10-year Treasury yield went below the 2% threshold and ended the day at 1.94%. Helped by the market strength, the retail results were very strong. A total of $340 million of orders were received up and down the curve. Opening the institutional order period on January 7, the Treasury market was weaker due to the stronger than expected ADP report, more optimism that Greece would not exit from the Euro and a stronger stock market. At the time the institutional order period began at 10:30 am, the 10-year Treasury yield increased 5 basis points to 1.99%. Yields were decreased the same amount as the prior day’s large MMD movements, with some exceptions. A total of $494 million of priority orders were received during the institutional order period. In addition, a member order of $34.7 million by Citigroup Global Markets Inc. for the 5% coupon of 2034 at a yield of 10 basis points below the yield offered to the public for that maturity was placed. There were $528.5 million of total institutional orders. At the end of the pricing, there were $279 million of unsold bonds which the Lead Underwriter agreed to underwrite with 1 to 3 basis point price adjustments in some undersubscribed maturities.

Performance Metrics

- 10-Year Treasury Rate
- Days to Market

DASNY met the Division of Budget’s timeline for pricing and closing.

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.
Bond Sale Summary

$73,670,000
Pratt Institute Revenue Bonds, Series 2015A

Program: Independent Colleges & Universities
Purpose: New Money/Refunding

The Institution
The Institute is an independent, not-for-profit education corporation located in Brooklyn, New York.

Market Conditions
Munis weakened on the day of pricing. 10-year triple-A MMD rose three basis points to 1.99% while the yield on the 30-year were up one basis point to 2.87%. Treasury prices were also lower as the yield on the two-year note was up three basis points to 0.59%, the 10-year rose five basis points to 2.12%, and the 30-year rose five basis points to 2.74%. Heading into the pricing, the underwriter was optimistic with strong investor demand despite an increasingly volatile market. The Bonds were priced with serial bond maturities ranging from 2015 to 2029 and term bonds due in 2034, 2036, 2039 and 2044. The 2015 and 2016 maturities had sealed bids. The remaining serials were originally priced at 39 basis points above triple-A MMD in 2017 up to 71 basis points in 2029. The 2027 maturity were discount bonds and were priced 89 basis points above triple-A MMD.  For the term bonds the 2034 maturity was priced 69 basis points above triple-A MMD, 2036 maturity (discount bond) 106 basis points, 2039 maturity 66 basis points, and 2044 maturity 66 basis points. Following a morning order period, the underwriter had a good book of business with all maturities oversubscribed between five and ten times, with the exception of the maturities with discount structures. Final pricing adjusted all maturities down five to ten basis points, with the exception of the 2027 maturity (down 1 basis point) and 2036 maturity (no adjustment). The issue had an all-in-TIC of 3.97%.

### Market Conditions

The private placement was structured as a 20-year 5.50% fixed rate bond issue with a 20-year term. First Niagara Bank, N.A. purchased all of the bonds. On the day of the sale 10-year triple-A MMD fell one basis point to 2.14%, the 20-year was down one basis point to 2.99% and the 30-year bonds dipped one basis point to 3.25%. Yields on 10- and 30-year Treasury bonds, however, inched up one and three basis points, respectively, to 2.46% and 3.32%. The two-year note remained flat at 0.38%. Rate was based on First Niagara Bank’s credit assessment.

Market Conditions
The Series 2014 Bonds were privately placed with TD Bank. The private placement was structured as a tax-exempt issuance, amortizing over twenty years with a final maturity on October 1, 2034. The interest rate on the bonds was set at 2.72% on December 18, four days prior to closing. The rate was based on TD Bank’s credit assessment. There is a mandatory tender of the bonds after 10 years. The tax-exempt market was weaker on the day of pricing due to the softening Treasury market. The 10-year MMD yield increased nine basis points to 2.08% while the 30-year yield increased seven basis points to 2.94%.

Market Conditions
The municipal market was following the lead of Treasuries, which saw significant declines in yields due to weakness in Europe, slower growth in China, fears of Ebola hurting the economy, stronger dollar and poor stock market performance. Municipalities were additionally helped by moderate supply throughout the year and a lot of cash to be invested. The market opened up strongly on Tuesday, October 14 for the retail pricing of the State Sales Tax Revenue Bonds. By 9:00 am, Treasuries were tighter across the board, with the 10 year declining to 2.21% or 7 basis points lower than Friday’s close. Retail demand was very strong with a total of $438 million of orders received. The institutional order period on Wednesday, October 15, began with another strong market. In addition, due to the strong market and extremely low absolute levels, DASNY decided to add another project to the financing and increase the issue size by approximately $127 million. The institutional order period saw strong demand at these already tightened levels. Based on the strong order flows, yields were reduced 2 basis points in 2017 and 2018, 1 basis point in 2019 to 2021, 4 basis points in 2022 to 2031, 3 basis points in 2032 to 2039 and 4 basis points for the term bond in 2044. Spreads were significantly lower than last year’s sales tax issue and with the extremely strong market, absolute yields were at historically low levels.

Days to Market
DASNY met the Division of Budget’s timeline for pricing and closing.

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was priced fairly.
Bond Sale Summary

Fiscal Year 2014-15

$197,955,000

School Districts Revenue Bond Financing Program Revenue Bonds, Series 2014A ($153,340,000), Series 2014B ($6,960,000), Series 2014C ($28,945,000) and Series 2014D ($8,710,000)

Program: Public School Districts
Purpose: New Money/Refinancing

The Institutions
The 18 public school districts are located in different areas of the State, are of varying geographic and demographic size and have varying economic, financial and indebtedness characteristics.

### Market Conditions

The Series 2014A-D transaction consisted of eighteen school districts separated into four series of bonds with ratings ranging from A+ to AA. The Bonds were priced the week of May 12th, with a retail order period on Monday and an institutional offering on Tuesday.

The 2014 Bonds were offered to retail investors amid a firm market. Municipal bond issuance for the first four months of 2014 remained low compared to the same period in 2013, resulting in new issues being offered at higher prices.

The Series 2014A Bonds were rated NR/AA/A+. Bond insurance was added for all maturities, elevating the S&P rating on the 2014A Bonds from A+ to AA. The Bonds were offered with yields ranging from .42% in 2016 to 4.15% in 2043. Bonds maturing in April and October of 2015 were offered as sealed bids. Spreads to the AAA MMD ranged from 10 to 85 basis points.

The Series 2014B Bonds were rated Aa3/NR/A+ and were offered at yields ranging from .48% in 2016 to 3.58% in 2029. Bonds maturing in 2015 were offered as a sealed bid. Spreads to the AAA MMD ranged from 10 to 80 basis points.

The Series 2014C Bonds were rated NR/AA/A+ and were offered at yields ranging from .48% in 2016 to 3.99% in 2042. Bonds maturing in 2015 were offered as a sealed bid. Spreads to the AAA MMD ranged from 10 to 80 basis points.

The Series 2014D Bonds were rated Aa2/NR/A+ and were offered at yields ranging from .48% in 2016 to 3.55% in 2029. Bonds maturing in 2015 were offered as a sealed bid. Spreads to the AAA MMD ranged from 10 to 77 basis points.

At the end of the day on Monday, the MMD yield curve was unchanged with the 10-year and 30-year MMD holding steady at 2.28% and 3.54%, respectively. Treasuries weakened with the 30-year treasury yield increasing two basis points to 3.49%.

The following day, weaker than expected economic data reversed treasuries from Monday’s losses with the 30-year treasury yield dropping four basis points to 3.45%. Yields fell across the curve on the AAA MMD scale with the 10-year and 30-year MMD both dropping by two basis points to 2.26% and 3.52%, respectively.

Due to oversubscriptions in the retail order period, yields on the Series 2014B Bonds were lowered by up to five basis points, with most maturities bumped one to two basis points. Institutional demand drove yields down further by an additional one to two basis points on many maturities. The sealed bid on the April 2015 maturity came in at a yield of .28% while the October 2015 maturity came in at a yield of .30%. Spreads to the AAA MMD for the 2014B Bonds ranged from 8 basis points to 84 basis points.

The yields on the Series 2014C Bonds were lowered by one basis point between 2020 and 2024 following the retail order period. Yields on the 2025 and 2027 maturities were lowered by four basis points due to institutional demand. No pricing adjustments were made for the remaining maturities. The sealed bid on the 2015 maturity came in at a yield of .32%. Overall, spreads to the AAA MMD ranged from 10 basis points to 80 basis points.

For the Series 2014C Bonds, yields were lowered between two and three basis points between 2017 and 2024 by two basis points in 2037 following the retail order period. Due to institutional demand, yields between 2020 and 2024 were lowered by an additional basis point. No other pricing adjustments were made for the remaining maturities. The sealed bid on the 2015 maturity came in at a yield of .32%. Overall, spreads to the AAA MMD ranged from 10 basis points to 79 basis points.
Bond Sale Summary

$197,955,000

School Districts Revenue Bond Financing Program Revenue Bonds, Series 2014A ($153,340,000), Series 2014B ($6,960,000), Series 2014C ($28,945,000) and Series 2014D ($8,710,000)

Program: Public School Districts
Purpose: New Money/Refinancing

The yields on the 2014D Bonds were lowered by one basis point in 2019 and two basis points in 2029 following the retail order period. Due to institutional demand, the 2025 maturity was lowered by one basis point, the 2026 maturity by four basis points, and the 2027 maturity by three basis points. No other pricing adjustments were made for the remaining maturities. The sealed bid on the 2015 maturity came in at a yield of .32%. Overall, spreads to the AAA MMD ranged from 10 basis points to 75 basis points.

Performance Metrics

Days to Market
Goal: 150-180 Days
Actual Days to Market: 62 Days

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was priced fairly.
Bond Sale Summary

Market Conditions

The Series 2014E-F transaction consisted of two school districts separated into two series of bonds with ratings ranging from A+ to AA-. Both Series were priced on Tuesday, September 16th, with bonds offered to both retail and institutional investors.

The Series 2014E Bonds were rated NR/AA/AA-. Bond insurance was added for all maturities, elevating the S&P rating on the 2014E Bonds from A+ to AA. The Bonds were offered with yields ranging from .45% in 2016 to 3.54% in 2035. Bonds maturing in April and October of 2015 were offered as sealed bids. Spreads to the AAA MMD ranged from 20 to 55 basis points.

The Series 2014F Bonds were rated Aa3/NR/AA- and were offered at yields ranging from .49% in 2016 to 3.79% in 2033. Bonds maturing in 2015 were offered as a sealed bid. Spreads to the AAA MMD ranged from 17 to 90 basis points. Bonds maturing from 2028 through 2033 were offered as discount bonds.

The market held steady on the day of pricing, with a slight bump in the intermediate part of the yield curve. The AAA MMD yield curve fell by one basis point to 2.22%, while the 30-year held steady at 3.37%. Treasuries continued to rise, with the 10-year yield increasing by six basis points to 2.60% and the 30-year yield increasing by two basis points to 3.36%.

Due to oversubscriptions, yields on the Series 2014E Bonds were lowered by three to five basis points for all maturities. The sealed bid on the April 2015 maturity came in at a yield of .265%. The sealed bid on the October 2015 maturity came in at a yield of .28%. Spreads to the AAA MMD for the 2014F Bonds ranged from 15 basis points to 87 basis points.

Performance Metrics

Days to Market

Goal: 150-180 Days
Actual Days to Market: 182 Days

This transaction is the second tranche issued of the $500 million programmatic authorization for the refinancing of Bond Anticipation Notes of various New York State School Districts, the proceeds of which were used to finance capital projects; financing of new money projects; and refunding of certain bonds issued by DASNY through the School Districts Revenue Bond Financing Program adopted by the DASNY Board in April 2014.

Pricing

DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was priced fairly.

5 The kick-off call for the Series 2014E-F transaction was held on August 12, 2014. The actual days to market from the kick-off call to closing was 57 days.
Bond Sale Summary

Fiscal Year 2014-15

$58,875,000

Secured Hospital Revenue Refunding Bonds, Series 2015 (Wyckoff Heights Medical Center)

Program: Hospitals
Purpose: Refunding

The Institution
The Institution is a 324-bed acute care teaching community hospital located in Brooklyn, just a few blocks away from the Queens County line. The Institution has participated in the Secured Hospital program since 1991.

Purpose of Issue
The Series 2015 Bonds were issued to currently refund DASNY’s Secured Hospital Revenue Refunding Bonds, Series 1998H.

Market Conditions
The Municipal Market was slightly weaker on the day of the pricing as the bond market finished off the last of this week’s larger transactions. Municipal yields rose across the curve with the 10-year MMD increasing by two basis points and the 30-year MMD increasing by four basis points to yield a 1.91% and 2.71%, respectively. The Treasury market also weakened with the 10-year yield increasing by six basis points and the 30-year yield increasing by eight basis points to yield a 2.02% and 2.60%, respectively. The transaction consisted of one series of tax-exempt bonds with serials from 2016 to 2021, with maturities in both February and August of 2021. The bonds were rated AA by both Standard and Poor’s and Fitch. This transaction was well received by investors allowing for favorable adjustments. Yields were lowered by two basis points in the 2016 and 2017 maturities. In the 2018 and 2019 maturities, yields were lowered by five basis points. In the 2020 maturity, the yield was lowered by seven basis points and in both 2021 maturities; the yields were lowered by ten basis points.

2 Minority Business Enterprise (MBE) firm.
3 Estimated at time of closing.
4 Paid as of March 31, 2015.
5 $150,000 invoiced; to be paid.

Performance Metrics

Market Conditions
The Municipal Market was weaker the day of the pricing with heavy trading as the bulk of the week’s new issue calendar came to market. Municipal yields rose across the curve with both the 10-year and 30-year MMD increasing by four basis points to yield a 2.33% and 3.40%, respectively. The Treasury market also weakened with both the 10-year and 30-year yields increasing by three basis points to yield a 2.64% and 3.47%, respectively. Secondary market trading also showed weakening. The transaction consisted of two series - one tax-exempt and one taxable. The 2014A tax-exempt series consisted of serial bonds from 2018 to 2030 with term bonds in 2034, 2039 and 2044. The 2014B taxable series consisted of serials from 2015 to 2024 with one term bond in 2029. The bonds were rated BBB- by Fitch. The transaction was well received by investors allowing for favorable adjustments. For the Series 2014A, yields were lowered by 2 basis points in 2028 and lowered by 5 basis points in 2034, 2039 and 2044. For the Series 2014B, yields were lowered by 1 basis point in both the 2024 and 2029 maturities.

Days to Market
Goal: 150-180 Days
Actual Days to Market: 260 Days
Delay was encountered due to tax issues.

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was priced fairly.
The Institution
The College is a non-profit institution of higher education headquartered in Manhattan.

Purpose of Issue
The Series 2014A Bonds were issued to refinance an outstanding taxable bank loan.

Bond Sale Summary
Fiscal Year 2014-15

$41,475,000
Touro College
Private Placement Bonds, Series 2014A

Program: Independent College & Universities
Purpose: Refinancing

Market Conditions
The Municipal Market and the Treasury market rallied on the day of the rate setting of this privately placed transaction which included $41.475 million of tax-exempt bonds which were purchased by First Republic Bank. Tax-exempt yields were lower by nine basis points in the ten-maturity to yield 1.81% and by eight basis points in the 30-year maturity to yield 2.75%. The Treasury market showed gains as well, as the yield on the 10-year Treasury note decreased by 10 basis points to 2.11% and the 30-year fell by seven basis points to 2.88%. The bonds were issued with a ten-year fixed rate of interest. The interest rate was calculated using the prior days’ 10-year treasury rate plus a spread of 250 basis points; this was then multiplied by 65%. Using this formula (and the prior days’ 10-year treasury rate of 2.21%), the initial ten-year fixed rate of interest was calculated at 3.06%. The rate will be reset every ten years using this formula.

Performance Metrics

Days to Market
Goal: 150-180 Days
Actual Days to Market: 224 Days

Client wanted to resolve issues arising during the due diligence of the 2014 Touro Obligated Group bond issuance and close the transaction prior to moving forward with this transaction.

1 Thompson Reuters 10-Year Treasury – ‘AAA’ as of 11/25/14.
2 Estimated at closing.
3 Paid as of March 31, 2015.

Market Conditions
The Reoffered Series 1998 and Series 2009 Bonds were privately placed with TD Bank. Both series of Bonds were offered in a new Bank Purchase Mode. On November 25th, the interest rate on the Series 1998 Bonds was set at 2.96% while the rate on the Series 2009 Bond was set at 3.22%. The rate was based on TD Bank’s credit assessment. There was no change in the final maturity for either series of Bonds, July 1, 2027 for the Series 1998 Bonds and July 1, 2038 for the Series 2009 Bonds. There is a mandatory tender of each series of Reoffered Bonds after 10 years. The tax-exempt market was slightly stronger on the day of pricing. The 10-year MMD yield decreased two basis points to 2.13% while the 30-year yield was one basis point tighter to 3.07%.

Guidelines for the Sale of Bonds
GUIDELINES FOR THE SALE OF BONDS

Section I. Purpose

The purpose of these Bond Sale Guidelines (the “Guidelines”) is to establish an administrative framework for the selection of underwriters, the conduct of bond sales by the Dormitory Authority of the State of New York (the “Authority”) and to assure that, in the conduct of its bond sales, the Authority implements procedures that are intended to achieve the lowest cost of capital to the Authority’s borrowers. The Guidelines also provide for: (a) broad participation of investment banking firms in Authority bond sales; (b) fair and competitive pricing of bonds of the Authority; and (c) implementation of the Authority's Opportunity Program policies by encouraging Minority and Women-Owned Business Enterprise (MWBE) participation in Authority bond sales and requiring equal employment opportunities and non-discriminatory practices by all investment banking firms which participate in Authority bond sales. These Guidelines shall apply to all public or private bond sales of the Authority, including those for which bond sale guidelines or similar requirements are mandated by statute.

Section II. Method of Sale

The members of the Authority shall authorize the sale of bonds by public competitive sale, public negotiated sale or private sale or may delegate to staff of the Authority the power to determine the method of sale provided that such method of sale shall be authorized by the Board only upon the recommendation of the Executive Director and the Managing Director of Public Finance and Portfolio Monitoring. The recommendation of the Executive Director and the Managing Director of Public Finance and Portfolio Monitoring regarding the method of sale shall be included in the Credit Summary Report.

A. Public Competitive Sale. State-supported debt may be sold at a public competitive sale when the credit is well known, the transaction involves a reasonably standard structure, the size of the bond issue is likely to result in competition among several qualified bidders and market conditions are stable. The notice of sale of the bonds shall be disseminated in a manner designed to reach a large number of investment banking firms so as to assure the most efficient sale of the bonds. The notice of sale shall state that the bonds will be awarded to the bidder whose bid to purchase all of the bonds is at a rate of interest which will produce the lowest true interest cost to the Authority and may contain such other provisions as are deemed necessary or appropriate by the Authority under the circumstances.

B. Public Negotiated Sale. State-supported debt may be sold at a negotiated sale when the structure of the financing is complex, the bond issue requires structuring assistance from the managing underwriter, the bond issue is for a new or infrequent credit in the market, the size of the bond issue is likely to limit the competition among qualified bidders, the bond issue includes a refunding of bonds previously issued, market conditions are unstable or uncertain or to further MWBE participation. Managing underwriters for a public negotiated sale of bonds shall be selected in accordance with the provisions of Section III of these Guidelines.
C. Private Placement. State-supported debt may be sold at private placement when the size of the bond issue or other considerations render it impractical or not cost effective to sell the bonds at public competitive or public negotiated sale or if it is in the best interest of the Authority or its borrowers to sell the bonds through private placement.

Each of the foregoing methods of sale shall also comply with any applicable statutory requirements.

The provisions set forth above regarding the use of public competitive sale, public negotiated sale and private placement for State-supported debt may also apply to bonds issued on behalf of private not-for-profit borrowers and other public non-State-supported debt borrowers. However, the Executive Director and Managing Director of Public Finance and Portfolio Monitoring shall also take into consideration the recommendation of the private not-for-profit borrowers and other public borrowers when making his or her recommendation.

Section III. Selection of Managing Underwriters for Negotiated Sales

A. Selection. The Managing Director of Public Finance and Portfolio Monitoring, subject to the approval of the Executive Director, shall implement procedures for the selection of managing underwriters for negotiated bond sales by the Dormitory Authority which shall comply with the general parameters set forth herein.

1. Pre-qualification of Managing Underwriters. It is the policy of the Authority to assure the widest possible selection of qualified firms to serve as managing underwriters of Authority bonds. From time to time, but at least once every two years (with one six month renewal and, upon extraordinary circumstances, an additional six month renewal), the Executive Director shall cause to be issued a Request for Proposals to determine a panel of qualified underwriters that can structure, market and sell bonds for the Authority’s financing programs. The Request for Proposals will be designed to elicit responses that will allow the Authority to evaluate the underwriting firm’s capability to serve as book-running manager of the Authority’s financings for either the Authority’s State-supported debt or the Authority’s private or other public borrowers. The Executive Director shall request the Managing Director of Public Finance and Portfolio Monitoring to evaluate the responses based on appropriate criteria, and make recommendations in writing to the Executive Director. The Executive Director shall compile a panel of qualified managing underwriters after reviewing the recommendations. The criteria utilized to distinguish and select the pre-qualified panel of managing underwriters may include, but need not be limited, to: (i) the firm’s qualifications and experience; (ii) the firm’s ability to structure and sell Authority bond issues; (iii) innovative structuring ideas; (iv) anticipated costs to the Authority; (v) prior experience of the Authority with the firm, if any, or the experience of the firm with comparable credits; (vi) the capitalization of the firm; (vii) the firm’s ethical standards and practices; (viii) participation of qualified MWBE firms; and (ix) the experience and ability to work with MWBE firms so as to promote and assist participation by such enterprises.

a. Selection of Firms to Serve as Book-running Manager for State-Supported Debt. The Executive Director shall select book-running managers for the Authority’s public financings from the panel of pre-qualified underwriters. Selection of managing underwriters for specific bond issues will be made by the Executive Director upon the recommendation of the Managing Director of Public Finance and Portfolio Monitoring which takes into account the following factors: (i) inclusion on the pre-qualified panel; (ii)
response to a Request for Proposals, as provided in paragraph 2 below, if any; (iii) support provided to the Authority through the general marketing of Authority bonds and assistance in the development of new financing programs; (iv) an evaluation of any conflict of interest, impropriety or appearance of impropriety; and, (v) such other factors that are deemed relevant to the particular bond issue.

b. Selection of Firms to Serve as Book-running Manager of Bond Sales on Behalf of Private Not-For-Profit Borrowers and Other Public Borrowers. The Board, upon the recommendation of the Executive Director and the Managing Director of Public Finance and Portfolio Monitoring, may authorize the sale of bonds through a managing underwriter that has been recommended by the private not-for-profit borrower or other public borrower or may delegate to staff the authority to select the managing underwriter for any such negotiated sale. The borrower may select a managing underwriter that is included on the pre-qualified panel. In the event that the borrower selects a managing underwriter that is not on the Authority’s pre-qualified panel such firm may be considered at the discretion of the Authority based on criteria including (i) response to a Request for Proposals, if any issued by the client; (ii) an evaluation of any conflict of interest, impropriety or appearance of impropriety; and (iii) such other factors that are deemed relevant to the particular bond issue including a determination by the Authority that the appointment of such managing underwriter is in accord with the purpose of these Guidelines as set forth in Section I.

2. Requests for Proposals for Specific Financings. As appropriate in connection with the development and marketing of a specific bond issue, the Executive Director may direct the Managing Director of Public Finance and Portfolio Monitoring to issue or cause to be issued a Request for Proposals or letter requesting information from firms on the pre-qualified panel of managing underwriters to solicit specific ideas and recommendations with respect to a specific bond issue and to serve as the basis for the appointment of the book-running managing underwriter and the remaining managing underwriters for the specific bond issue.

B. Performance Evaluation. At the completion of each bond sale, an evaluation of the performance of the managing underwriters shall be prepared in the conduct of the sale of the bonds which shall include an evaluation of the pricing, retail and institutional distribution and minority and women owned business participation.

C. Ethical Considerations. It is the policy of the Authority to expect the highest ethical standards from its underwriters. The Executive Director shall implement appropriate measures to promote the highest ethical standards and practices in the underwriting of every Authority bond issue.

D. Promotion of Minority and Women-Owned Business Enterprises. It is the goal of the Authority to promote and assist participation by Minority and Women-Owned Business Enterprises in the underwriting of the Authority’s bonds. This goal shall be considered in the selection of managing underwriters as provided herein.

It is also the Authority’s goal to select as managing underwriters those investment banking firms that have evidenced compliance with the law of the State of New York prohibiting discrimination in employment. The Authority recognizes that this goal may be achieved by selecting as managing underwriters those firms that have demonstrated that they do not discriminate in employment. Accordingly, the Authority shall request from investment banking
firms such information on employment policies and practices as is necessary to assess such firms' compliance with relevant laws and policies on equal employment opportunity and affirmative action.

Section IV. Bond Sale Report

The Authority shall annually prepare and approve a Bond Sale Report which shall include the Authority's Guidelines, amendments to such Guidelines since the last Authority report, and, if necessary, an explanation of the Guidelines, and the results of any sale including, but not limited to, the underwriter's discount and true interest cost of each issue of bonds sold during the fiscal year. Such Bond Sale Report shall also identify which of the Authority's bonds sales were conducted as public competitive sales, public negotiated sales and private placements, and shall also identify which, if any, bonds were issued as taxable bonds. The Bond Sale Report shall also describe the participation of minority and women-owned business enterprise firms in such sales. Such Bond Sale Report may be part of any other annual report that the Authority is required to make.

After approval by its Members, the Authority shall annually submit its Bond Sale Report as may be required by law.

Copies of the bond sale report shall also be available to the public upon reasonable request at the Authority's offices.

Section V. Miscellaneous Provisions

A. Powers of Amendment. Any modification or amendment of these Guidelines may be made by a Resolution adopted at any duly constituted meeting of the Members of the Board of the Authority; provided, however, that no such modification or amendment shall abrogate the rights and duties of existing Authority contracts, the terms of which are established pursuant to these Guidelines.

B. No Recourse Under these Guidelines. No provision of these Guidelines shall be the basis for any claim based on these Guidelines against the Authority or any Member, officer or employee of the Authority.

C. Validity of Bonds. The failure of the Authority to comply with any of the provisions of these Guidelines shall not in any way affect the legality or validity of any bonds issued and sold by the Authority.

D. Effect upon Existing Authority Contracts. These Guidelines shall not affect in any way the rights and duties of the Authority pursuant to contracts with third parties executed prior to the effective date of these Guidelines.
