This document provides guidance as to the applicability of either New York State Department of Labor (DOL) or New York City Department of Environmental Protection (DEP) asbestos regulations to projects in New York City.

Contact the Code Compliance Department if there is a question as to the applicability of a specific regulation or provision.

A. CUNY & SUNY FIT
1. Primary enforcement agency/ asbestos regulation: New York State Department of Labor/ 12 NYCRR Part 56 (Industrial Code Rule 56). The Asbestos Project Designer should discuss and confirm the legal ownership of the building in reference during the survey/design process. Contact the DASNY Project Manager
2. The Asbestos Project Designer should request necessary work practice variances from DOL. The approved variances should be identified in section 1.02 of the Asbestos Specification and included in the appropriate specification appendix. DASNY Code Compliance review and approval is required for all Variance Petitions, prior to submission to DOL.
3. Although DOL regulations are applicable, the Asbestos Project Designer must address specific safety related provisions of DEP regulations as follows:
   a. For all asbestos abatement projects in design, the Asbestos Project Designer should review ACP7 questions 27-30 in consultation with the project Design Professional, if applicable. If the answer to any question is yes, the Designer should prepare a Work Place Safety Plan and/or applicable construction documents, as required, for submission to DEP. In Construction, the signed and sealed WPSP shall be forwarded by the Asbestos Project Designer to the Asbestos Contractor prior to filing the ACP7, NYC DEP Notification. DASNY Code Compliance review and approval is required for all Work Place Safety Plan documents, prior to NYC DEP submission.
   b. If the project involves multiple phases or construction work is required in conjunction with or prior to completion of asbestos abatement, the Asbestos Project Designer shall specify in Section 1.02 that an ACP9, 1-22b variance proposal and supporting documentation is developed by the Asbestos Contractor for submission to DEP requesting that DEP allow the issuance of NYC Department of Buildings permits prior to completion of abatement activities (the provisions of the applicable DEP Service Notice should be followed).
   c. The Asbestos Project Designer should obtain preliminary approval of the Work Place Safety Plan, by the DEP, if required. Work Place Safety Plan documents should be referenced in Section 1.02 of the Asbestos Specification and shall be included in the appropriate construction drawing set. The specifications will require the Contractor to file an ACP7 and obtain a DEP issued Asbestos Abatement Permit. The Contractor will electronically submit the previously approved/reviewed/finalized documents as required by DEP.
d. For any asbestos project that has an ACP-7 filed, ACP-15 submission is required followed by obtaining an ACP-21 to closeout the project with the DEP.

B. HHC, NYC Courts, NYCHA, OCME, DCAS, Other NYC Owned Buildings (New York City agencies)
1. Primary enforcement agency/ asbestos regulation: New York City Department of Environmental Protection/ 15 RCNY Chapter 1. The Asbestos Project Designer should discuss and confirm the legal ownership of the building in reference during the survey/design process. Contact the DASNY Project Manager as necessary.
2. The Asbestos Project Designer shall utilize, where applicable, the existing citywide variance decision issued by NYS DOL granting permission to follow DEP asbestos regulations for these types of asbestos projects. The citywide variance decision and extensions are attached to this guidance.
3. The Asbestos Project Designer shall review the abatement scope of work and determine if any part of the abatement project will require a procedural variance from the DEP. Notes related to this variance requirement should be identified in section 1.02 of the asbestos specification.
4. The Asbestos Project Designer must address specific safety related provisions of DEP regulations as follows:
   a. For all asbestos abatement projects in design, the Asbestos Project Designer should review ACP7 questions 27-30 in consultation with the project Design Professional, if applicable. If the answer to any question is yes, the Designer should prepare a Work Place Safety Plan and/or applicable construction documents, as required, for submission to DEP.
   b. If the project involves multiple phases or construction work is required in conjunction with or prior to completion of asbestos abatement, the Asbestos Project Designer shall specify in Section 1.02 that an ACP9, 1-22b variance proposal and supporting documentation is developed by the Asbestos Contractor for submission to DEP requesting that DEP allow the issuance of NYC Department of Buildings permits prior to completion of abatement activities (the provisions of the applicable DEP Service Notice should be followed).
   c. The Asbestos Project Designer should obtain preliminary approval of the Work Place Safety Plan, by the DEP, if required. Work Place Safety Plan documents should be referenced in Section 1.02 of the Asbestos Specification and shall be included in the appropriate construction drawing set. The specifications will require the Contractor to file an ACP7 and obtain a DEP issued Asbestos Abatement Permit. The Contractor will electronically submit the previously approved/ reviewed/finalized documents as required by DEP.
   d. For any asbestos project that has an ACP-7 filed, ACP-15 submission is required followed by obtaining an ACP-21 to closeout the project with the DEP.
5. Prior to the start of construction, a letter from the building’s owner shall be developed and filed with the NYC DEP that authorizes the utilization of the DASNY NYC DEP ARTS e-mail account for this project. DASNY shall perform all on-line acknowledgements for the building owner. DASNY shall not be identified as the building owner.

C. OPWDD, OMH, SUNY, OASAS ATCs (New York State Owned facilities)
   1. Primary enforcement agency/ asbestos regulation: New York State Department of Labor/ 12 NYCRR Part 56 (Industrial Code Rule 56). The Asbestos Project Designer should discuss and confirm the legal ownership of the building in reference during the survey/design process. Contact the DASNY Project Manager as necessary.
   2. The Asbestos Project Designer should request necessary work practice variances from DOL. The approved variances should be identified in section 1.02 of the Asbestos Specification and included in the appropriate specification appendix. DASNY Code Compliance review and approval is required for all Variance Petitions.
   3. Review of ACP7 is not usually required. Confirm with DASNY Code Compliance.

D. OASAS Voluntaries, HHAP, etc. Located within New York City
   1. Primary enforcement agency/ asbestos regulation: New York City Department of Environmental Protection/ 15 RCNY Chapter 1. The Asbestos Project Designer should discuss and confirm the legal ownership of the building in reference during the survey/design process. Contact the DASNY Project Manager as necessary.
   2. DASNY does not typically hold contracts and DASNY shall not be referenced in the technical specification sections. All provisions of DEP regulations are applicable.
   3. If located outside of New York City, primary enforcement agency/ asbestos regulation: New York State Department of Labor/ 12 NYCRR Part 56 (Industrial Code Rule 56).

RE: File No. 15-1515

Dear Sir/Madam:

STATE OF NEW YORK
DEPARTMENT OF LABOR
DIVISION OF SAFETY AND HEALTH

The attached is a copy of Decision, dated, 12/7/2015, which I have compared with the original filed in this office and which I DO HEREBY CERTIFY to be a correct transcript of the text of the said original.

If you are aggrieved by this decision you may appeal within 60 days from its issuance to the Industrial Board of Appeals as provided by Section 101 of the Labor Law. Your appeal should be addressed to the Industrial Board of Appeals, State Office Building Campus, Building 12, Room 116, Albany, New York, 12240 as prescribed by its Rules and Procedure, a copy of which may be obtained upon request.

WITNESS my hand and the seal of the NYS Department of Labor, at the City of Albany, on this day of 12/7/2015.

Edward A. Smith, P.E.
Associate Safety and Health Engineer

ACM Abatement Projects in New York City

File No. 15-1515
CITY-WIDE
DECISION
Case(s) 1-9
ICR 56

The Petitioner, pursuant to Section 30 of the Labor Law, having filed Petition No. 15-1515 on December 07, 2015 with the Commissioner of Labor for a variance from the provisions of Industrial Code Rule 56 as hereinafter cited on the grounds that there are practical difficulties or unnecessary hardship in carrying out the provisions of said Rule; and the Commissioner of Labor having reviewed the submission of the petitioner dated November 09, 2015; and

Upon considering the merits of the alleged practical difficulties or unnecessary hardship and upon the record herein, the Commissioner of Labor does hereby take the following actions:
Case No. 1  ICR 56-4
Case No. 2  ICR 56-5
Case No. 3  ICR 56-6
Case No. 4  ICR 56-7
Case No. 5  ICR 56-8
Case No. 6  ICR 56-9
Case No. 7  ICR 56-10
Case No. 8  ICR 56-11
Case No. 9  ICR 56-12

VARIANCE GRANTED. The Petitioner's proposal for removal of ACM at the subject premises in accordance with the attached 3-page stamped copy of the Petitioner's submittal, is accepted; subject to the Conditions noted below:

THE CONDITIONS

1. As written with modifications noted.

2. Usage of this variance is limited to those asbestos removals identified in this variance or as outlined in the Petitioner's proposal.

In addition to the conditions required by the above specific variances, the Petitioner shall also comply with the following general conditions:

GENERAL CONDITIONS

1. A copy of this DECISION and the Petitioner's proposals shall be conspicuously displayed at the entrance to the personal decontamination enclosure.

2. This DECISION shall apply only to the removal of asbestos-containing materials from the aforementioned areas of the subject premises.

3. The Petitioner shall comply with all other applicable provisions of Industrial Code Rule 56-1 through 56-12.

4. The NYS Department of Labor Engineering Service Unit retains full authority to interpret this variance for compliance herewith and for compliance with Labor Law Article 30. Any deviation to the conditions leading to this variance shall render this variance Null and Void pursuant to 12NYCRR 56-12.2. Any questions regarding the conditions supporting the need for this variance and/or regarding compliance hereto must be directed to the Engineering Services Unit for clarification.
5. This DECISION shall terminate on December 31, 2017.

Date: December 7, 2015

MARIO J. MUSOLINO
ACTING COMMISSIONER OF LABOR

By

Edward A. Smith, P.E.
Associate Safety and Health Engineer

PREPARED BY: Mark G. Wykes, P.E.
Senior Safety and Health Engineer

REVIEWED BY: Edward A. Smith, P.E.
Associate Safety and Health Engineer
5. Bldg. Description and Locations:
   - All Health and Hospital Corporation (HHC) Facility Buildings
   - All NYC Courts Facility Buildings
   - All NYC Office of the Chief Medical Examiner (OCME) Facility Buildings

9. Relief requested: ICR 56-4 through 56-12  Timeframe requested: 2 years

10. Hardship:
    All of these facility buildings are owned by New York City and are all located in the 5 boroughs. DASNY manages the construction work at these facility buildings, and for regulation consistency New York City has requested that all asbestos projects at these facility buildings comply with Title 15 RCNY Chapter 1, NYC DEP asbestos rules and regulations. The application of these local regulations and any alternative specific measures approved by NYC DEP, reflect the need to comply with recently enacted New York City Department of Buildings (NYCDOB) procedures for the granting of alteration/renovation permits in facilities where ACM will be impacted. ACM that will be impacted by the asbestos projects, include various quantities of interior and exterior friable and non-friable ACMs at each facility building.

    Many site-specific variance decisions have been obtained to comply with this request, and it is a hardship to continue applying for a separate site-specific variance on a case-by-case basis for each asbestos project, and each intermediate phase of work over multiple years, at each facility building.

11. Proposed Procedures:

    1. If impact to egress, fire protection systems or passive fire protection is required for completion of the asbestos project, all pertinent city agencies shall be informed (NYCDOB, NYCDEP, FDNY, etc.) of impacts by asbestos abatement contractor and their project designer.

    2. All asbestos project logistics at the subject premises relating to the variance decision shall be coordinated with NYCDOB, FDNY, NYCDEP and other city agencies as appropriate.

    3. All asbestos projects at the subject premises shall be completed as per the requirements of Title 15 RCNY Chapter 1, NYC DEP asbestos rules and regulations, with the addition of asbestos contractor licensure, asbestos handler certification and asbestos project NYS DOL notification as per the requirements of NYS DOL ICR 56.

Ed –

DASNY would like to obtain an extension to our citywide variance decision #15-1515.

The current termination date for this 2-year multi-site variance is 12-31-2017.

We would like to extend the variance decision for another two years until 12-31-2019.

Thank you and Happy Holidays!
Chris
