$32,911,000

**Bronx-Lebanon Hospital Center Private Placement Revenue Bonds, Series 2017**

Program: Hospitals  
Purpose: Private Placement / Refunding

---

### The Institution

Bronx-Lebanon Hospital Center serves as part of the largest voluntary, not-for-profit health care system serving the South and Central Bronx. The Hospital is a 593-bed teaching hospital composed of two major divisions (Fulton and Concourse). Bronx-Lebanon Hospital Center provides medical, surgical, obstetric, pediatric and psychiatric inpatient acute care services, as well as emergency care and ambulatory and clinical services to residents of the Bronx.

### Purpose of Issue

The Series 2017 Bonds were issued to advance refund DASNY's Bronx-Lebanon Hospital Center Revenue Bonds, Series 2009.

### New Issue Details

---

### Market Conditions

The transaction consisted of one series of 15-year tax-exempt bonds which were privately placed with TD Bank (the “Bank”). The Bank may tender the bonds in 2027, 10 years after the issuance. The bonds will bear interest at a fixed rate of 3.52% for a term of 10 years. The Municipal Market was slightly stronger with the 10-year and the 30-year MMD both decreasing by two basis points to yield 2.10% and 2.68%, respectively. U.S. Treasuries were slightly stronger as well with the 10-year remaining steady at 2.48% and 30-year yield decreasing by one basis point to a yield of 2.83%.

Program: Other Independent Institutions Purpose: Private Placement / New Money / Refinancing

The Institution
United Cerebral Palsy Association of Putnam and Southern Dutchess Counties, Inc. (d/b/a Hudson Valley Cerebral Palsy Association) is a not-for-profit voluntary agency formed in July 2002 to provide services to persons with disabilities previously served by the United Cerebral Palsy Associations of New York State, Inc. The Institution addresses the needs of developmentally disabled individuals and their families by providing, promoting, and assisting in the establishment of residential, educational, training, treatment, and rehabilitation facilities throughout the Hudson Valley.

Purpose of Issue
The Series 2017 Bonds were issued to refund the Putnam County IDA Variable Rate Civic Facility Series 2005A and 2005B bonds, refinance taxable indebtedness and finance capital improvements to certain Institution facilities.

Market Conditions
The municipal bond market experienced heavy volume during December as issuers looked to price and close transactions before year-end prior to potential federal tax law changes. While market participants awaited the final details of the proposed federal tax bill, volume approached nearly $25 billion during the week of December 11th with approximately $8 billion of bonds priced on December 14th. Munis were stronger on the day of pricing with the 10-year triple-A MMD yield falling two basis points to 1.99% and the 30-year dropping four basis points to 2.57%. The Bonds were structured with serial bond maturities ranging from 2022 to 2036 and were originally priced between 15 and 70 basis points above triple-A MMD. The 7/1/22 maturity was initially priced with a 5.00% coupon to yield 1.75% while the 7/1/36 maturity was priced with a 4.00% coupon to yield 3.17%. The underwriter had a strong book of business with oversubscriptions for all maturities, ranging from two times to 11 times. As a result, yields were lowered between three and 10 basis points across all maturities. Following final pricing adjustments, the yield on the 7/1/22 maturity was lowered to 1.72% and the yield on the 7/1/36 maturity was lowered to 3.09%. The issue had an all-in-TIC of 3.01%.

Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.

1 Thomson Reuters. Municipal Yield Curve – ‘AAA’ match maturity as of 8/2/17.
2 Treasury Rate. 3-Year Treasury as of 8/2/17.
3 Estimated at closing.
4 Paid as of 3/31/18.
5 MWBE firm.
Market Conditions
The Municipal Market was steady on the day of the pricing as inventory was low. The 10-year MMD decreased by one basis point with a yield of 1.94% and the 30-year MMD remained the same with a yield of 2.74%. Treasury yields grew with the 10-year yield increasing by one basis point and the 30-year yield decreasing by one basis point to yield a 2.27% and 2.85%, respectively. The IAC transaction consisted of one series of bonds, with two sub-series, one taxable and one tax-exempt. The taxable subseries consisted of a three-year taxable term bond. The tax-exempt subseries consisted of serials from 2018 to 2027 with term bonds in 2032, 2037 and 2042. The Series 2017A Bonds was a pooled borrowing for six IAC participants and was rated Aa2 by Moody’s. The transaction had a mixed amount of demand from investors and many adjustments were made. With little demand for the serial bonds, the underwriter increased yields by ten basis points in 2019, 11 basis points in 2025, 14 basis points in 2022, 15 basis points in 2020, 2021, 2024 and 2026, 16 basis points in 2023 and 20 basis points in the 2027 maturity. The term bonds were in demand at the initial levels of 3.25%, 3.45% and 3.55% in years 2032, 2037 and 2042, respectively. The 2042 term bond yielded a 3.45%, an 87 basis point spread to the commensurate AAA MMD maturity.

Market Conditions
The transaction consisted of one series of 30-year tax-exempt bonds which were privately-placed with TD Bank, N.A. (the “Bank”). The Bank may tender the bonds in 2032, fifteen years after issuance. The Bonds will bear interest at a fixed rate for a term of fifteen years. The rate is equal to 69.75% of 115 basis points over the Bank’s cost of funds of 2.98%. The 15-year term rate was set at 2.8807%. The municipal market was slightly weaker with the 10-year and the 30-year MMD both increasing by four basis points to yield a 1.92% and a 2.74%, respectively. U.S. Treasuries were slightly weaker as well with the 10-year yield increasing by one basis point and the 30-year Treasury bond increasing by two basis points to yield a 2.22% and a 2.77%, respectively.

Bond Allocation

Market Conditions
Municipal yields were mixed on the day. The 1-year through 4-year yields each decreased one basis point, the 5-year through 12-year yields were unchanged, the 13-year through 22-year yields each increased one basis point, and the 23-year through 30-year yields each increased two basis points. The 10-year MMD remained steady at 1.93% and the 30-year MMD increased two basis points to 2.75%. The 10-year treasury yield increased three basis points to 2.29% and the 30-year treasury yield increased two basis points to 2.86%. The transaction was structured with serial bonds maturing from 2018 through 2028 with spreads over MMD ranging between 5 and 28 basis points. After the morning order period, three maturities had balances. The remaining maturities were all subscribed for with the certain maturities oversubscribed up to four times. Overall, the issue was approximately 2 times oversubscribed. The yields on certain maturities decreased one or two basis points. The issue had a TIC of 1.93%.

% of PV Savings: 4.26%

Market Conditions
The municipal market absorbed more supply as issuers from across the country added to the surge of municipal bonds in the market. The market was tentative as yields rose across the scale. Both the 10-year and 30-year MMD increased by four basis points to yield a 2.05% and a 2.68%, respectively. U.S. Treasuries were also weaker with the 10-year yield increasing by three basis points and the 30-year yield increasing by two basis points to yield a 2.42% and a 2.80%, respectively. The transaction consisted of serial bonds from 2018 to 2037 and term bonds in 2042 and 2047. The bonds were unenhanced and were rated Aa3 by Moody’s, AA- by Standard and Poor’s and AA by Fitch. The transaction was well received by investors. Due to the oversubscriptions, yields were lowered significantly for all of the serial and term bonds.

### Market Conditions

The Series 2017 Bonds were offered through two separate series - the tax-exempt Series 2017A Bonds and the taxable Series 2017B Bonds.

The 2017A Bonds were offered to retail and institutional investors on the morning of May 16th. Munis were stronger on the day of pricing with the 10-year triple-A MMD falling two basis points to 2.09% and the 30-year declining two basis points to 2.96%. The Series 2017A Bonds were structured with serial bond maturities ranging from 2019 to 2040 and a term bond maturing in 2043. Spreads on the 5% coupon bonds ranged from 5 to 27 basis points over triple-A MMD. There was strong demand for the 2017A Bonds with orders totaling over $3.07 billion for approximately $453.0 million of bonds across all maturities. At the end of the order period, all maturities were oversubscribed between one and 11 times. As a result, the underwriter was able to reduce yields across the board by between one and 10 basis points. The final spread on the 2043 maturity was 25 basis points over triple-A MMD.

Indications of interest from pre-marketing efforts of the taxable Series 2017B Bonds on May 15th resulted in price guidance on the morning of May 16th ranging from a spread of plus 10 basis points to Treasuries on the 2019 maturity to plus 120 basis points on the 2047 maturity. The 2017B Bonds were structured with serial bond maturities ranging from 2019 to 2034 and with term bonds in 2039 and 2047. At the end of the day, there was sufficient demand for the 2017B Bonds to allow the underwriter to lower spreads by three basis points in 2039 and by five basis points in 2020, 2021, 2023, 2034 and 2047. The 2047 maturity, at a spread of 115 basis points to the 30-year Treasury, had a final yield of 4.148%.

### Pricing

DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.

Market Conditions

The bond market had been very stable in the two weeks leading up to the sale. After a quiet Monday, the Treasury market had much weaker tone on Tuesday morning, caused by sell-off in the Euro-bond market after a hawkish speech from European Central Bank President Mario Draghi. With the sell-off in Treasury market during the retail pricing on Tuesday, the underwriters recommended offering all the bonds to retail to maximize retail orders while holding the maximum spread on the long 5% coupon bonds at 30 bps over MMD. The 2018 maturity would be sold via sealed bids.

The issue received an impressive $467 million in retail orders, with 2026 being the most popular with $68 million of orders. The small 2019 and 2040 maturities were the only ones fully subscribed. The remaining balance was $1.238 billion, not including the 2018 sealed bid. The MMD adjusted 2 to 4 bps higher yields.

A total of $1.6 billion of orders were received for the $1.24 billion balance. A total $216 million of balances remained in 2020, 2021 and 2032. On a full maturity basis, the 2037, 2038 and 2039 maturities were more than two times oversubscribed. The final pricing saw yields increase 2 bps in 2020 and 2021, 1 bps in 2022 and reduced 1 bps in 2037 to 2039.

Pricing

DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was priced fairly.
Bond Sale Summary

$1,667,125,000

Personal Income Tax Revenue Bonds (General Purpose), Series 2017B ($1,610,190,000), Series 2017C ($22,355,000) and Series 2017D ($34,580,000) (Federally Taxable)

Program: Personal Income Tax
Purpose: New Money / Refunding

The Program
The Personal Income Tax Bonds are issued as a financing vehicle for a broad range of state-supported financing programs.

Purpose of Issue
The Series 2017 B, C and D Bonds were issued to finance or reimburse all or a portion of the costs of programs and projects throughout the State, including capital projects for educational facilities, mental health facilities, transportation projects, a judicial training facility and grants for library, health care and economic development programs, and to refund certain outstanding NYS Thruway Second General Highway and Bridge Trust Fund Bonds.

Bond Allocation

Bank (100%)

Market Conditions
The Series 2017A Bonds were privately placed with TD Bank. The Bank purchased the Bonds with a floating rate bearing interest at 69.75% of the sum of 30-day LIBOR plus .725%. The initial interest rate was set at 1.36%. This rate is re-priced every 30 days to reflect the current 30-day LIBOR rate. The bonds are subject to mandatory tender on July 30, 2027. Munis finished stronger on the day of the sale with the yield on the 10-year triple-A MMD falling two basis points to 1.92% and the yield on the 30-year dropping three basis points to 2.71%. Treasuries were also stronger with yields on both the 10-year and 30-year decreasing three basis points to 2.23% and 2.81%, respectively.

Underwriter
Lead Manager: Morgan Stanley

Market Conditions
St. John’s Series 2017A bonds priced at the tail end of the largest volume of bond sales the municipal market has experienced. There was heavy volume during December as issuers looked to price and close transactions before year-end prior to potential federal tax law changes. Nearly $25 billion of municipal bonds priced the week prior to St. John’s and approximately $11 billion of municipal bonds priced the week of the St. John’s pricing. When St. John’s entered the market the underwriter indicated there was significant “investor fatigue” and the market had begun to sell off. Muni yields weakened on the day of pricing with the 10-year and 30-year triple-A MMD yields each increasing five basis points to 2.13% and 2.73%, respectively. The Bonds were structured with serial bond maturities ranging from 2026 to 2030 and were originally priced between 40 and 52 basis points above triple-A MMD. Despite the market, the underwriter had a strong book of business with oversubscriptions for all maturities, ranging from two times to 4 times over. As a result, yields were lowered two basis points for the 2029 and 2030 maturities. The issue had a TIC of 2.79%.

4 MWBE firm.
Pricing
DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.
Bond Sale Summary

Fiscal Year 2017-18

$1,380,550,000

Sales Tax Revenue Bonds, Series 2017A ($1,308,065,000) and Series 2017B ($72,485,000) (Federally Taxable)

Program: Sales Tax

Program: Public School Districts
Purpose: New Money / Refinancing

Market Conditions

The Series 2017A-E transaction consisted of 40 school districts separated into five series of bonds. The bonds were offered to retail investors on May 9, 2017 and to institutional investors on May 10, 2017. The Series 2017A Bonds were rated NR/A+/AA-. Bond insurance was added for the 2026-2035 maturities, elevating the S&P rating on those bonds to AA. The Bonds were offered to retail investors with yields ranging from 1.17% in 2019 to 3.64% in 2035. Spreads to the AAA MMD ranged from 14 to 83 basis points.

The Series 2017B Bonds were rated Aa3/NR/AA-. Bond insurance was added for the 2026-2046 maturities, elevating the S&P rating on those bonds to AA. The Bonds were offered to retail investors with yields ranging from 1.15% in 2019 to 3.96% in 2046. Spreads to AAA MMD ranged from 12 to 85 basis points.

The Series 2017C Bonds were rated NR/AA+/AA-. Bond insurance was added for the 2026-2032 maturities, elevating the S&P rating on those bonds to AA. The Bonds were offered to retail investors with yields ranging from 1.15% in 2019 to 3.96% in 2032. Spreads to the AAA MMD ranged from 12 to 35 basis points.

The Series 2017D Bonds were rated Aa2/NR/AA-. The Bonds were offered to retail investors with yields ranging from 1.13% in 2019 to 3.96% in 2032. Spreads to the AAA MMD ranged from 10 to 35 basis points.

The Series 2017E Bonds were rated NR/A+/AA-. Bond insurance was added for the 2022-2029 maturities, elevating the S&P rating on those bonds to AA. The Bonds were offered to retail investors with yields ranging from 1.23% in 2019 to 3.94% in 2029. Spreads to the AAA MMD ranged from 20 to 54 basis points.

For each Series, the 2018 maturity was offered as a sealed bid.

At the end of the day on May 9th, the market was weaker with both the 10-year and 30-year AAA-MMD yields up one basis point to 2.18% and 3.04%, respectively. The underwriter received a very strong response from retail investors with nearly $313 million in total orders, including $55.2 million for the 2017A Bonds, $167.9 million for the 2017B Bonds, $44.1 million for the 2017C Bonds, $19.3 million for the 2017D Bonds and $26.4 million for the 2017E Bonds. Interest from retail investors was across all maturities, with most oversubscriptions between one and two times. Maturities that were fully sold in the retail order period were not offered to institutional investors in an effort to drive institutions toward the unsold maturities. The Underwriter lowered yields on the oversold maturities by one to two basis points and left open the possibility of further reducing yields after the institutional order period.

On the day of institutional pricing, prices of top-rated municipal bonds were stronger with the 10-year MMD down one basis point to 2.17% and the 30-year down three basis points at 3.01%. The Underwriter received a good response from institutional investors for the remaining maturities. A total of just under $313 million in institutional orders were received, including $90.1 million for the 2017A Bonds, $41.8 million for the 2017B Bonds, $1.6 million for the 2017C Bonds, and $7.1 million for the 2017D Bonds. No more orders were taken on the 2017E Bonds with the exception of the sealed bid for the 2018 maturity. The sealed bids for the 2018 maturities resulted in yields ranging from 0.97% on the 2017A Bonds to 1.10% on the 2017D Bonds. Following the institutional order period, yields on oversold maturities from both the retail and institutional order periods were reduced by an additional one to four basis points. The Underwriter took in approximately $15 million of unsold balances with no adjustments to those yields.

Days to Market

Goal: 150-180 Days
Actual Days to Market: 93

This transaction is the first tranche issued of the $500 million programmatic authorization adopted by the DASNY Board in March 2017.

Pricing

DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was priced fairly.

### Bond Allocation – Series 2017G

- Money Managers (65%)
- Bond Funds (26%)
- Broker/Dealers (5%)
- Insurance (3%)
- Individuals/Retail (1%)
The Series 2017F Bonds were rated NR/A+/AA-. The Bonds were offered to retail investors with yields ranging from .99% in 2018 to 1.73% in 2023. Spreads to the AAA MMD ranged from 8 to 75 basis points. The market finished unchanged on the day of retail pricing, with both the 10-year and 30-year AAA-MMD yields unchanged from 2.01% and 2.82%, respectively. The underwriter received a strong response from retail investors with over $296 million in total orders including $115.0 million for the 2017F Bonds, $170.9 million for the 2017G Bonds, $9.8 million for the 2017H Bonds, $765,000 for the 2017I Bonds and $225,000 for the 2017J Bonds. Interest from retail investors was across all maturities, with most oversubscriptions between one and three times.

Going into the institutional order period, the underwriter offered all of the unsold maturities and up to 50% of each oversold maturity to institutional investors. No yield adjustments were made until after the institutional order period. On the day of institutional pricing, prices of top-rated municipal bonds were mixed with the 10-year MMD unchanged at 2.01% and the 30-year up one basis point to 2.83%. The Underwriter received a good response from institutional investors for the remaining maturities. A total of just over $372 million in institutional orders were received, including $200.8 million for the 2017F Bonds, $159.6 million for the 2017G Bonds, $5.0 million for the 2017H Bonds, $7.0 million for the 2017I Bonds and $7.0 million for the 2017J Bonds. No institutional orders were received on the 2017J Bonds, mainly due to the smaller block sizes. Following the institutional order period, yields on oversold maturities from both the retail and institutional order periods were reduced by one to five basis points while some maturities with unsold balances were increased between one and three basis points. The Underwriter took in unsold balances.

Bond Allocation

Market Conditions
The transaction consisted of one series of 19-year tax-exempt bonds which were privately-placed with TD Bank, N.A. (the “Bank”). The Bank may tender the bonds in 2027, ten years after issuance. The Bonds will bear interest at a fixed rate for a term of ten years. The rate is equal to seventy percent of 110 basis points over the Bank’s cost of funds. The 10-year term rate was set at 2.68%. The Municipal Market was slightly stronger with the 10-year and 30-year MMD both decreasing by two basis points to yield a 1.86% and a 2.71%, respectively. U.S. Treasuries were slightly stronger as well with the 10-year yield decreasing by two basis points to yield a 2.14%. The 30-year Treasury bond was unchanged at 2.75%.

Performance Metrics

Days to Market
Goal: 150-180 Days
Actual Days to Market: 203 Days

Pricing
This transaction was a private placement and the rate was based on TD Bank’s credit assessment.

1 Thomson Reuters. Municipal Yield Curve – “AAA” match maturity as of 08/30/17 based on the conversion date of 08/30/2027.
2 Estimated at closing.
3 Paid as of 3/31/18.
4 MWBE firm.
5 Delays due to the length of the audit review process which led to expiration of the bank commitment and the need for the extension of the bank commitment.
Bond Sale Summary

Fiscal Year 2017-18

$344,665,000
State University of New York Dormitory Facilities Revenue Bonds, Series 2017A

Program: SUNY Dormitory Facilities Revenue Bonds
Purpose: New Money/Refunding

The System
The State University of New York ("SUNY") is the largest comprehensive state-supported higher education system in the United States. The SUNY system is comprised of four University Centers (two of which include Health Sciences Centers), two additional Health Science Centers, thirteen University Colleges, two Specialized Colleges, eight Colleges of Technology and five Statutory Colleges. SUNY’s Residence Hall Program operates on 25 of the 29 SUNY Campuses. There are approximately 400 Dormitory Facilities in the Residence Hall Program.

Purpose of Issue
The Series 2017A Bonds were issued to fund one year of SUNY’s capital plan for the construction and rehabilitation of various Dormitory Facilities and to refund certain DASNY’s Lease Revenue Bonds (State University Dormitory Facilities Issue), Series 2008A, 2009A, 2010A, 2011A and 2012A.

Market Conditions

The SUNY Dorms transaction was scheduled to price with a retail order period on Tuesday April 18th, and an Institutional pricing the following day. On the morning of the retail order period, the Treasury Market was relatively flat. The lead underwriter offered retail investors serial bonds maturing July 1, 2019 through July 1, 2038 and Term bonds with July 1, 2042 and 2037 maturities. The bonds were 5% coupons, with the exception of four maturities, one of which was a sealed bid at 2% coupon, the 2019 Serial at a 4% coupon, 2033 at 3.25% coupon and 2036 at 3.5% coupon. The retail marketing went very well with all maturities available being oversubscribed. The underwriter suggested accelerating the Institutional order period up to that afternoon of April 18. Before issuing the wire for the Institutional order period, the underwriter recommended yield adjustments from 1 to 3 basis points throughout the curve. By the time the Institutional order period ended, the transaction was oversubscribed by 4.05 times. This resulted in the underwriter recommending additional adjustments from 1 to 6 additional basis points throughout the curve. At the conclusion of the pricing the yield on the 2042 and 2046 maturity was spread 29 and 28 basis points respectively to 2042 and 2046 MMD. The ten year treasury closed the day at 2.18%.

Pricing

DASNY reviews every negotiated pricing to determine whether or not the transaction was fairly priced. This review involves reviewing all trades from the time the bonds are free to trade for a period of three consecutive business days. The review involves each maturity of the transaction. DASNY is looking for large trades, $1 million or more where the price of the trade is higher than the initial offering price. A higher price would result in a lower yield and may indicate that the transaction was unfairly priced. The review and determination takes into consideration market fluctuation, credit spreads and any other factors that might affect the price from the time of sale through the end of the review period.

The transaction was fairly priced.

Market Conditions

In an unusually busy Monday, the municipal market ended up weaker as municipal bond issuers entered the market in force in an effort to get deals done before the end of the year. Both the 10-year and 30-year MMD increased by four basis points to yield a 2.03% and a 2.62%, respectively. U.S. Treasuries were also weaker with the 10-year yield increasing by three basis points and the 30-year yield increasing by five basis points to yield a 2.39% and a 2.74%, respectively. The transaction originally consisted of serial bonds from 2030 to 2032 and term bonds in 2035, 2037, 2039, 2042, 2043 and 2047. The bonds were unenhanced and were rated BBB- by Fitch. With a weaker market and lack of investor demand, the underwriter changed the structure to create a serial bond in 2043 and term bonds in 2033, 2038, 2042 and 2047. Yields were increased by five basis points in the 2033, 2038 and 2042 maturities from prior levels of the corresponding original maturities.

Guidelines for the Sale of Bonds
GUIDELINES FOR THE SALE OF BONDS

Section I. Purpose

The purpose of these Bond Sale Guidelines (the “Guidelines”) is to establish an administrative framework for the selection of underwriters, the conduct of bond sales by the Dormitory Authority of the State of New York (the “Authority”) and to assure that, in the conduct of its bond sales, the Authority implements procedures that are intended to achieve the lowest cost of capital to the Authority’s borrowers. The Guidelines also provide for: (a) broad participation of investment banking firms in Authority bond sales; (b) fair and competitive pricing of bonds of the Authority; and (c) implementation of the Authority's Opportunity Program policies by encouraging Minority and Women-Owned Business Enterprise (MWBE) participation in Authority bond sales and requiring equal employment opportunities and non-discriminatory practices by all investment banking firms which participate in Authority bond sales. These Guidelines shall apply to all public or private bond sales of the Authority, including those for which bond sale guidelines or similar requirements are mandated by statute.

Section II. Method of Sale

The members of the Authority shall authorize the sale of bonds by public competitive sale, public negotiated sale or private sale or may delegate to staff of the Authority the power to determine the method of sale provided that such method of sale shall be authorized by the Board only upon the recommendation of the Executive Director and the Managing Director of Public Finance and Portfolio Monitoring. The recommendation of the Executive Director and the Managing Director of Public Finance and Portfolio Monitoring regarding the method of sale shall be included in the Credit Summary Report.

A. Public Competitive Sale. State-supported debt may be sold at a public competitive sale when the credit is well known, the transaction involves a reasonably standard structure, the size of the bond issue is likely to result in competition among several qualified bidders and market conditions are stable. The notice of sale of the bonds shall be disseminated in a manner designed to reach a large number of investment banking firms so as to assure the most efficient sale of the bonds. The notice of sale shall state that the bonds will be awarded to the bidder whose bid to purchase all of the bonds is at a rate of interest which will produce the lowest true interest cost to the Authority and may contain such other provisions as are deemed necessary or appropriate by the Authority under the circumstances.

B. Public Negotiated Sale. State-supported debt may be sold at a negotiated sale when the structure of the financing is complex, the bond issue requires structuring assistance from the managing underwriter, the bond issue is for a new or infrequent credit in the market, the size of the bond issue is likely to limit the competition among qualified bidders, the bond issue includes a refunding of bonds previously issued, market conditions are unstable or uncertain or to further MWBE participation. Managing underwriters for a public negotiated sale of bonds shall be selected in accordance with the provisions of Section III of these Guidelines.
C. **Private Placement.** State-supported debt may be sold at private placement when the size of the bond issue or other considerations render it impractical or not cost effective to sell the bonds at public competitive or public negotiated sale or if it is in the best interest of the Authority or its borrowers to sell the bonds through private placement.

Each of the foregoing methods of sale shall also comply with any applicable statutory requirements.

The provisions set forth above regarding the use of public competitive sale, public negotiated sale and private placement for State-supported debt may also apply to bonds issued on behalf of private not-for-profit borrowers and other public non-State-supported debt borrowers. However, the Executive Director and Managing Director of Public Finance and Portfolio Monitoring shall also take into consideration the recommendation of the private not-for-profit borrowers and other public borrowers when making his or her recommendation.

**Section III. Selection of Managing Underwriters for Negotiated Sales**

A. **Selection.** The Managing Director of Public Finance and Portfolio Monitoring, subject to the approval of the Executive Director, shall implement procedures for the selection of managing underwriters for negotiated bond sales by the Dormitory Authority which shall comply with the general parameters set forth herein.

1. **Pre-qualification of Managing Underwriters.** It is the policy of the Authority to assure the widest possible selection of qualified firms to serve as managing underwriters of Authority bonds. From time to time, but at least once every two years (with one six month renewal and, upon extraordinary circumstances, an additional six month renewal), the Executive Director shall cause to be issued a Request for Proposals to determine a panel of qualified underwriters that can structure, market and sell bonds for the Authority's financing programs. The Request for Proposals will be designed to elicit responses that will allow the Authority to evaluate the underwriting firm's capability to serve as book-running manager of the Authority’s financings for either the Authority's State-supported debt or the Authority's private or other public borrowers. The Executive Director shall request the Managing Director of Public Finance and Portfolio Monitoring to evaluate the responses based on appropriate criteria, and make recommendations in writing to the Executive Director. The Executive Director shall compile a panel of qualified managing underwriters after reviewing the recommendations. The criteria utilized to distinguish and select the pre-qualified panel of managing underwriters may include, but need not be limited, to: (i) the firm’s qualifications and experience; (ii) the firm’s ability to structure and sell Authority bond issues; (iii) innovative structuring ideas; (iv) anticipated costs to the Authority; (v) prior experience of the Authority with the firm, if any, or the experience of the firm with comparable credits; (vi) the capitalization of the firm; (vii) the firm’s ethical standards and practices; (viii) participation of qualified MWBE firms; and (ix) the experience and ability to work with MWBE firms so as to promote and assist participation by such enterprises.

a. **Selection of Firms to Serve as Book-running Manager for State-Supported Debt.** The Executive Director shall select book-running managers for the Authority's public financings from the panel of pre-qualified underwriters. Selection of managing underwriters for specific bond issues will be made by the Executive Director upon the recommendation of the Managing Director of Public Finance and Portfolio Monitoring which takes into account the following factors: (i) inclusion on the pre-qualified panel; (ii) response to a Request for Proposals, as provided in paragraph 2 below, if any; (iii)
support provided to the Authority through the general marketing of Authority bonds and assistance in the development of new financing programs; (iv) an evaluation of any conflict of interest, impropriety or appearance of impropriety; and, (v) such other factors that are deemed relevant to the particular bond issue.

b. Selection of Firms to Serve as Book-running Manager of Bond Sales on Behalf of Private Not-For-Profit Borrowers and Other Public Borrowers. The Board, upon the recommendation of the Executive Director and the Managing Director of Public Finance and Portfolio Monitoring, may authorize the sale of bonds through a managing underwriter that has been recommended by the private not-for-profit borrower or other public borrower or may delegate to staff the authority to select the managing underwriter for any such negotiated sale. The borrower may select a managing underwriter that is included on the pre-qualified panel. In the event that the borrower selects a managing underwriter that is not on the Authority’s pre-qualified panel such firm may be considered at the discretion of the Authority based on criteria including (i) response to a Request for Proposals, if any issued by the client; (ii) an evaluation of any conflict of interest, impropriety or appearance of impropriety; and (iii) such other factors that are deemed relevant to the particular bond issue including a determination by the Authority that the appointment of such managing underwriter is in accord with the purpose of these Guidelines as set forth in Section I.

2. Requests for Proposals for Specific Financings. As appropriate in connection with the development and marketing of a specific bond issue, the Executive Director may direct the Managing Director of Public Finance and Portfolio Monitoring to issue or cause to be issued a Request for Proposals or letter requesting information from firms on the pre-qualified panel of managing underwriters to solicit specific ideas and recommendations with respect to a specific bond issue and to serve as the basis for the appointment of the book-running managing underwriter and the remaining managing underwriters for the specific bond issue.

B. Performance Evaluation. At the completion of each bond sale, an evaluation of the performance of the managing underwriters shall be prepared in the conduct of the sale of the bonds which shall include an evaluation of the pricing, retail and institutional distribution and minority and women owned business participation.

C. Ethical Considerations. It is the policy of the Authority to expect the highest ethical standards from its underwriters. The Executive Director shall implement appropriate measures to promote the highest ethical standards and practices in the underwriting of every Authority bond issue.

D. Promotion of Minority and Women-Owned Business Enterprises. It is the goal of the Authority to promote and assist participation by Minority and Women-Owned Business Enterprises in the underwriting of the Authority’s bonds. This goal shall be considered in the selection of managing underwriters as provided herein.

It is also the Authority’s goal to select as managing underwriters those investment banking firms that have evidenced compliance with the law of the State of New York prohibiting discrimination in employment. The Authority recognizes that this goal may be achieved by selecting as managing underwriters those firms that have demonstrated that they do not discriminate in employment. Accordingly, the Authority shall request from investment banking firms such information on employment policies and practices as is necessary to assess such
firms’ compliance with relevant laws and policies on equal employment opportunity and affirmative action.

Section IV. Bond Sale Report

The Authority shall annually prepare and approve a Bond Sale Report which shall include the Authority's Guidelines, amendments to such Guidelines since the last Authority report, and, if necessary, an explanation of the Guidelines, and the results of any sale including, but not limited to, the underwriter's discount and true interest cost of each issue of bonds sold during the fiscal year. Such Bond Sale Report shall also identify which of the Authority's bonds sales were conducted as public competitive sales, public negotiated sales and private placements, and shall also identify which, if any, bonds were issued as taxable bonds. The Bond Sale Report shall also describe the participation of minority and women-owned business enterprise firms in such sales. Such Bond Sale Report may be part of any other annual report that the Authority is required to make.

After approval by its Members, the Authority shall annually submit its Bond Sale Report as may be required by law.

Copies of the bond sale report shall also be available to the public upon reasonable request at the Authority's offices.

Section V. Miscellaneous Provisions

A. Powers of Amendment. Any modification or amendment of these Guidelines may be made by a Resolution adopted at any duly constituted meeting of the Members of the Board of the Authority; provided, however, that no such modification or amendment shall abrogate the rights and duties of existing Authority contracts, the terms of which are established pursuant to these Guidelines.

B. No Recourse Under these Guidelines. No provision of these Guidelines shall be the basis for any claim based on these Guidelines against the Authority or any Member, officer or employee of the Authority.

C. Validity of Bonds. The failure of the Authority to comply with any of the provisions of these Guidelines shall not in any way affect the legality or validity of any bonds issued and sold by the Authority.

D. Effect upon Existing Authority Contracts. These Guidelines shall not affect in any way the rights and duties of the Authority pursuant to contracts with third parties executed prior to the effective date of these Guidelines.

Approved: 2/25/09
