

# Building Resilient Healthcare Facilities Forum

*Design Strategies for People and Performance*

## FEATURED SPEAKER

### **Charles Maggio, AIA, NCARB**

*Vice President, Turner Townsend Healthcare*

A Project Management Executive with over 30 years of healthcare experience (including as a practicing architect, hospital facilities executive & owner's representative consultant), **Charles Maggio** is a Vice President with Turner & Townsend Healthcare where he provides project delivery solutions to health systems and providers. He specializes in medical design and planning, construction, development management, facility activation and integrated strategic real estate solutions. Based in New York City, Mr. Maggio has two roles for Turner & Townsend, 1.) leading operations nationally for their healthcare project management services business and, 2.) serve the Northeast market with a full platform of services including project and program management, cost consulting and scheduling. His architectural background and consulting expertise allows Mr. Maggio to evaluate challenges and develop strategic solutions that position clients for success in today's dynamic healthcare market. He also has extensive experience with HUD's FHA mortgage program.
