

Building Resilient Healthcare Facilities Forum

Design Strategies for People and Performance

FEATURED SPEAKER

Marcia Levine, MSN, RN, NE-BC

Vice President Clinical Programming & Design Real Estate & Operations, Memorial Sloan Kettering Cancer Center

Marcia Levine, MSN, RN, NEA-BC is a senior healthcare executive with deep expertise in clinical operations, perioperative services, inpatient nursing, and healthcare design. She currently serves as Vice President of Clinical Programming & Design at Memorial Sloan Kettering Cancer Center, where she

leads the strategic development of innovative care environments that support advanced clinical delivery models.

In addition to her design leadership, Marcia has led complex clinical operations across large academic medical centers, overseeing high-acuity perioperative and inpatient nursing services and driving improvements in quality, safety, throughput, and patient experience. Her ability to integrate frontline clinical insight with strategic planning enables the creation of care models and environments that are both operationally effective and deeply patient-centered.
