Next Scheduled Review
04/26/22

Issued By: Interior Design

Procedure Owner: Jeanine A. Tefft – Senior Interior Designer

Approved By: Stephen Curro – Managing Director, Construction

PURPOSE

The purpose of this procedure is to provide guidance for compliance with DASNY fire safety and flammability requirements.

BACKGROUND

This procedure applies to all upholstered furniture, mattresses, draperies, and similar items that impact life safety, and are purchased by DASNY. These requirements are as follows:

- **Upholstered Furniture:** CAL (California Technical Bulletin) 117-2013, a test of the filling materials and fabrics used in the manufacturing of upholstered furniture, *SB-1019 – a requirement in California of CAL-117-2013 to include labeling for the possible addition of Flame Retardants in products.*
- **Mattresses:** CAL 129, US Government Standard FF-4-72 (pursuant to 16 CFR parts 1632 and 1633 and Boston Fire Code BFD IX-11, composite tests specifically referring to the fire retardant properties of all mattress components after assembly.
- **Box Springs**– United States Government Standards for flammability of mattresses FF-4-72 (pursuant to 16 CFR parts 1632 and 1633.
- **Drapery Panels and Fabrics:** NFPA 701, a component test of all fabric.
- **Accordion Fold Doors:** Class B or Class C flame spread rating as determined by tests conducted in accordance with ASTM E84/NFPA 255. Whether the Class B or Class C standard will be used is dependent upon the occupancy; consult Code Compliance prior to commencing the procurement.
- **Reupholstered Furniture Filling Materials** – CAL 117-2013 CAL (California Technical Bulletin) 117-2013, a test of the filling materials and fabrics used in the manufacturing of upholstered furniture. *SB-1019 – a requirement in California of CAL-117-2013 to include labeling for the possible addition of flame retardants (FR) in products.*

Note: These requirements are in effect for all purchases made by DASNY, regardless of the intended use of the facility where the commodity is to be used.

FORMS

[Invitation for Bids \(IFB\)](#)
Request for Proposals (RFP)
[Designation of Vendor](#)
Purchase Order Request

PROCEDURE

- 1) At the commencement of a project, the Interior Designer or Purchasing Coordinator (PC) outlines DASNY flammability requirements with respect to upholstered furniture, mattresses, draperies and fabrics to the client. When an outside architect and/or an outside design consultant are employed, they are briefed and provided with a copy of these requirements. The additional expense is discussed, as well as the safety and risk management issues involved.
- 2) DASNY Interior Design or an outside design consultant only specifies items that meet the approved DASNY flammability requirements.
- 3) The PC assures that all IFBs and request for quotations include a statement that clearly delineates the fire safety and flammability testing. The statement, at a minimum, appears as a notation, in a bold font, at the beginning of the detailed specifications portion of the IFB. Requests for quotations contain clear statements as to the flammability requirements on the quotation request form (if one is utilized). Note that while it is unlikely that applicable items are procured pursuant to a RFP, similar disclosures and requirements are applicable should the situation arise.
- 4) Items procured via a NYS Office of General Services Contract that have been identified by OGS in the contract as meeting fire safety standards, are not subject to further certification documentation by DASNY. The PC, however, requests this information from the company, if required by the client or deemed necessary for any other reason. Items purchased through other centralized contracts have to meet the same documentation standards outlined in this procedure.
- 5) The PC directs any questions regarding applicable tests for a particular item to the DASNY Interior Design Unit.
- 6) Vendors submitting pricing on covered items are required to supply a manufacturer's statement on company letterhead certifying that the goods being furnished meet or exceed any, and all applicable flammability standards. Bids failing to include this statement from the manufacturer may be considered incomplete and non-responsive. Quotations must include a statement from the vendor submitting the quote, that the goods meet the applicable

flammability standard. The successful vendor must provide a manufacturer's statement to the same effect prior to the issuance of a purchase order.

- 7) DASNY reserves the right to request bidders to submit certification and documentation from an independent testing laboratory that the subject items meet the applicable standards.
- 8) Should any question arise as to the validity, appropriateness or the specific results of any laboratory test, the PC consults with the DASNY Interior Design Unit and advises the Director, Procurement of the status and outcome of the situation.
- 9) All certifications and related documentation received, is maintained with the procurement record. A copy of the certification(s) and documentation are transmitted to the facility at the time of the award of the procurement, or as soon as practical. A copy of the transmittal letter is maintained in the procurement record.

GUIDELINES

- Nothing contained in this procedure prevents or discourages a client from requesting that items be specified to exceed standards that are referenced in this procedure.
- Any client that requests DASNY to issue an "in-house" purchase order or designates a vendor for any commodity that falls within the scope of this procedure certifies to DASNY, in writing, that the commodity meets the flammability requirements contained herein.
- All upholstered furniture is required to meet the CAL 117 - 2013 flammability testing standard. *SB-1019 – a requirement in California of CAL-117-2013 to include labeling for the possible addition of FR's in products.*
- For the purposes of this procedure, the following will not be considered upholstered furniture: a) furniture that is procured solely for outdoor use; b) furniture procured solely for exercise purposes (e.g., weightlifting benches, vaulting horses); c) furniture containing less than one-half inch of filling material where the horizontal and vertical surfaces do not meet, and medical equipment and furnishings.
- Reupholstered furniture will be constructed using filling materials that meet the CAL 117- 2013 standards. *SB-1019 – a requirement in California of CAL-117-2013 to include labeling for the possible addition of FR's in products.*
- The above referenced thirty (30) day laboratory test deadlines may be extended for a reasonable period of time at the sole discretion of DASNY, should the circumstances warrant an extension. The decision to grant an extension can be made by the PC. Factors to be considered include, but are not limited to, the complexity of the testing, the availability and workloads of laboratories for the testing, the time required to assemble a sample item for composite testing, the vigilance of the potential vendor in attempting to secure the test, the project schedule, etc.
- DASNY reserves the right to request copies of test reports directly from the laboratories that perform them.

- The cost of testing will be borne by the bidder or potential vendor. Should a situation arise whereby it is determined that it would be impractical to require a vendor to bear the cost of testing, DASNY may elect to reimburse the testing expense to the vendor.
- In situations where it is impractical to provide each facility with a copy of certifications and documentation related to this procedure (i.e., repetitive purchases for various facilities pursuant to term contracts), the certifications and documentation will be filed with the procurement record and made available to any affected facility upon request.
- Bid specification language will read as follows:
 - *Upholstered Furniture required to meet CAL 117-2013 and SB-1019 – a requirement in California of CAL-117-2013 to include labeling for the possible addition of FR’s in products:* “The filling material and fabric used in the upholstered furniture must meet the flammability requirements of California Technical Bulletin 117-2013 (CAL 117-2013).
