1:00 p.m.

Specifics of the Addendum:

The purpose of Addendum No. 003 is to Provide Responses to the Requests for Information
and revise Attachments A, B & C of the Notice and Information for Bidders.

Responses to Requests for Information:

Please see responses to the Requests for Information below:

1Q.   Will you furnish any AV Flow diagrams, Room Drawings, and Design Drawings?

1A.   There are no Audio-Visual Drawings to provide. The CUNY SLU Furniture 14th Floor
Furniture Plan dated 3/3/22 has been provided for your review and coordination.

2Q: There are four (4) Panasonic Displays with only three (3) mounting devices, How will the
4th display be mounted? Will the walls be reinforced to handle the large displays?

2A: No, all four (4) displays will be placed on an A/V carts. Item No. 9 - Chief Fusion Large
Adjustable Tilt Wall Mount - For Monitor 42-86", Item No. LTM1U on the Notice and
Information for Bidders – Attachment A: Bid Breakdown & Schedule has been removed.

3Q.   Is there a written narrative for the programming of the Touch Panels?

3A.   No, the two (2) classrooms in question can be setup as a classroom x 2 or one (1) Big
Room and will need the program to assist.

4Q.   What will the Labor Rate be NYC M or New Construction NYC A?

4A.   There is no Project Labor Agreement for this Project. Please refer to the NYS

Department of Labor PRC No. – 2022003043 (A-V IT INSTALL) Article 8 that has been assigned to this project.

5Q.   Is this new construction?

5A.   Yes, this is new construction.

6Q.   Is there a job completion date?

6A.   All work is to be completed by August 3, 2022.

7Q.   Attachment B: Detailed Specifications Line item 1 is this just for MISC Hardware? Why is Mason listed here?

7A.   This item will be removed from both Attachment A: Bid Breakdown and Schedule and Attachment B: Detailed Specifications.

8Q.   On Items 27, 28 and 29 of Attachment A: Bid Breakdown and Schedule are the quantity amounts shown in Feet? Are you requesting 2,400 ft. of cable priced per foot?

8A.   The requested items should be priced per foot. Please refer to the revised Attachment A: Bid Breakdown and Schedule and Attachment B: Detailed Specifications.

9Q.   Is DASNY requesting are you guys requesting payment and performance bond for the above mentioned bid.

9A.   A payment bond will be required if the Bid is $200k or more and using subcontractors to complete the work. A performance bond is required if the Bid is $200k or more.

10Q. Please confirm that bidders do not need to quote any of the items on the equipment list provided in the bid and that the equipment list was for reference of a similar design only.

10A. Correct, list given was for another room since the layout of 14 changed.

11Q. Can you provide a floor plan of the room showing where the future divisible wall will be?

11A. Attachment C: Scope of Work and Site Logistics is amended to include The CUNY School of Labor and Urban Studies 14th Floor Furniture Plan. A revised version of Attachment C to the Notice and Information for Bidders is included as part of this Addendum.

12Q. The scope of work handed out during the walk-through says, "Wall plates should accommodate the appropriate connections for the podium and carts to be moved" and that the cart-mounted displays should be "...able to be moved...to designated locations in the room". Can you provide a floor plan of the room showing the requested locations of connection plates and/or the designated locations within the room where you'd like the carts to be able to be used?

12A. Wall plates should be in front, back and side wall three areas to connect the podiums or carts.

13Q.   The scope of work handed out during the walk-through mentions "laptop connections" at the podium but does not specify exactly which types of connections are requested. Would a single HDMI connection at each of the two podiums be sufficient?

13A.   HDMI, USB – C, and power as per the Scope of Work provided in the Revised Attachment C: Scope of Work and Site Logistics.

14Q.   Should there be a connection within each podium for a customer-furnished PC to be permanently connected? Or will the laptop connections at the top of each podium be the only AV sources for the room system?

14A.   Only a laptop.

15Q.   The scope of work handed out during the walk-through mentions a display at the podium but does not specify a display size or what this display's intended use is. Please confirm that this display will be used for the podium PC and that a 24" display will be sufficient.

15A.   Based on podium specifications most reasonable size monitor.

16Q.   The scope of work references a wireless handheld mic and wireless lavalier mic for each room but does not mention a mic for each podium. Please confirm that podium mics will not be required.

16A.   Yes, the podiums should have microphones.   A wireless lavalier would be used if someone is walking around, and a hand-held will be used for students.

17Q.   Please confirm whether the PTZ camera feeds will need to be routable to the laptop connections on the top of each podium.

17A.   All cameras are able to be controlled from the laptop (when in Split mode just the one room and in combined control all cameras).

18Q.   Please confirm whether the entire room needs to be mic'd for videoconferencing or if only the instructors need to be mic'd for videoconferencing. Mic'ing the whole room will add significant cost to the room system.

18A.   Both rooms will need to be setup with microphones.

19Q.   The scope of work references a touch panel controller for each room but does not specify where the controller should be located. Please confirm that the touch panel controller should be located at the podium for each room.

19A.   The touch panel controller should be located on the podium.

20Q.   The scope of work references a touch panel controller but does not specify the size of the touch panel. Please confirm what size touch panel should be included.
20A.   The touch panel should be mounted on the wall, be removable from the dock and also be minimum of 10 inches (no iPad).

21Q.   Will the walls be reinforced to handle the large displays?

21A.   No, all screens will be on the A/V carts.

22Q.   Is there a job completion date?

22A: The completion date is August 3, 2022

23Q.   Is there a written narrative for the programming of the touch panels?

23A.   No, there is not a written narrative for the programing of the touch panels.

Attn: Jeff Rickman
28 West 44th Street, 14th Fl.
New York NY 10036

Scope of Work:
CUNY School of Labor and Urban Studies Hyflex Classrooms/Multipurpose Rooms

The CUNY School of Labor and Urban Studies has a need for 2 Hyflex classrooms to be setup for the fall semester. These rooms can be used as classrooms or a multipurpose room when combined.

Rooms will consist of two Flat Panels each on an AV Cart with equipment to be self-contained. Rooms A & B Should have a control system to operate in both Separate and combined modes. Rooms should have microphone/speakers' capability either ceiling or wall based and operate in single or combined mode. A small wireless Microphone handheld and livelier shall be integrated with the system described. Each room should consist of 2 HD camera mounted to the displays able to be moved with the cart to designated locations in the room. A podium with as needed components, such as display, laptop connections and other needed accessories. The touch panel will allow display to turn on/off, overall system volume, camera PTZ control or any other necessary controls. Wall plates should accommodate the appropriate connections for the podium and carts to be moved. Touch panel. Provider will install (2) provide 2 HD Cameras per room connected to the displays and all controlled via combined mode. Each room will have two 75" Provider-supplied display on an AV Cart. Provider will provide and install a portable rack cabinet to be placed in appropriate podium or av cart to house necessary equipment. Please provide any necessary cooling needed in the housing at manufactures spec.

The control system as noted should operate in standalone and combined mode. As an example, Rooms A & B when combined will allow all four (4) cameras to function independently for four separate feeds. The four (4) displays shall be routable to cover various functions and be flexible to what is available what is shown. For example, show room a pc to all displays or room b to only display two (2) of four (4). All audio mics and speakers shall function as one system when in combined mode.

All system Diagrams, as built compiled and uncompiled code should be provide to CUNY SLU upon completion and sign off.

All work must be completed by Wednesday, August 3, 2022.
