

1) Section 2 – Engagement Requirements	Requirements are Certificate of Authorization to provide Engineering/Design Services in NY from SED, and NYS Licensed architect/engineer for providing design services. We are an Environmental Consulting firm, which provides all the services (and are certified to perform) needed for this contract but we are not an Engineering or Architectural firm per SED. We do have a PE on staff who can review and stamp hazardous materials designs. Does not being an Engineering Firm disqualify us from submitting as a Prime?	Please refer to Section 2.2 Qualifications and Certification Requirements: "Certificate of Authrization to provide Engineering/Design services in New York State from the State Education Department." If the prime firm doesn't have a certificate of authority from SED, then they are disqualified from bidding.

For example, are tab divider pages, resumes, licenses/certs, and DASNY required forms to be included within this page limitation? The forms must contain sufficient information to assure DASNY of its accuracy." Per Section 5, Item e : "Identify any questions, comments, and objections to the Scope of Services outlined in Appendix A of the attached Sample Contract, for DASNY’s review and consideration." Per Section 7.1 Submission of Technical, Cost, and Administrative Proposal
4) Section 3 - Content of Technical Proposal	Per RFP Section 3.1 - Tab 2e - Can you please verify that we are NOT required to provide copies of licenses and registrations for Prime and Subconsultant Firms and just a “list” is sufficient?
