

BIDDING REQUIREMENTS for PURCHASING

NOTICE AND INFORMATION FOR BIDDERS

Attachment A: Bid Breakdown & Schedule

Bidder:

DASNY Contact:

Theresa Graffeo, Purchasing Coordinator
tgraffeo@dasny.org

Request for Information (RFI's):

RFI's due April 13 ,2023. Submit in writing via email to tgraffeo@dasny.org. Responses will be posted to DASNY's website via addenda no later than April 17, 2023. It is the responsibility of the Bidder to obtain Addenda.

Services/Product Required By:

August 2023

Description:

Furnish and Deliver Kitchen Equipment

Bid Open Location:

DASNY, Corporate Headquarters, 515
 Broadway, Albany, NY 12207

Bid Open Date and Time:

April 28, 2023 at 2:30

Solid Door Refrigerator

Reach-In Bottom Mount
Super Deluxe Series

Model : TSR-49SD-N6

FEATURES & BENEFITS

Self-Cleaning Condenser

The accumulation of dust in the condenser can cause the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products inside. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

Digital temperature control & monitor system

- Keep food products safe by maintaining constant temperatures.
- Alarms that sound when doors are not sealed shut; protect against food spoilage that originates from cold air leaks.
- Early warning alarm program detects issues before malfunction occurs.
- Digital display allows for easy monitoring.
- Programs interpret the condition of refrigeration systems by self-diagnosis.
- Rapid cool-down function (Turbo cooling).
- Automatic evaporator fan motor delays.

Hydrocarbon refrigerants (R-600a)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

Stainless steel cabinet construction

The Turbo Air Super Deluxe model boasts a stainless steel interior and exterior (galvanized steel top, bottom and back). It guarantees the utmost in cleanliness and long product life. Sharp corners and edges have been rounded to reduce the risk of injury. The Super Deluxe adds a touch of style to the most refined setting.

Sturdy, clean stainless steel shelving

Shelves are the most important part of cleanliness as they come in direct contact with food. After a while, PVC coated wire shelves may peel, rust and lead to unsanitary conditions. Only the Turbo Air Super Deluxe series uniquely provides stainless steel shelving.

Door pressure release device

Pressure relief doors are designed to eliminate vacuum pressure and allow easy, instant door opening.

High-density polyurethane insulation

The entire cabinet structure and solid doors are foamed-in-place using high density, HCFC free polyurethane insulation.

LED interior lighting

Bottom mount compressor

Refrigerator holds 33°F ~ 38°F for the best in food preservation

Patented Self-Cleaning Condenser

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

LXe Series Undercounter Commercial Dishwashers

Where Speed & Performance
Meet Hobart Clean

advansys™

SUPERCHARGE YOUR DISHWASHING WITH THE LXe SERIES & OUR LEGENDARY HOBART CLEAN.

The powerful Hobart LXe Series undercounter packs more speed and performance into a compact size, allowing you to wash even the toughest food soils off all your dinner ware and prep ware. Advanced technologies and our exclusive two-level racking system let you spend less time washing and more time in other parts of your operation, or on cleaning up and getting out early. And with its efficient design, you will use less water, energy and chemicals.

See for yourself how the LXe dishwasher can do more for less.

The Right Fit

The 32-1/2" height allows the LXe to fit under ADA-compliant countertops. To enhance loading and unloading ergonomics, an optional 17-inch stand is available.

Smart Display

Simple to operate with minimal training needed. Set common functions using a programmable button.

advansys™

Supercharge Your Throughput.

The optional Second Level Rack Kit boosts capacity up to 48 racks/hour, helping staff get done early.

Steam Elimination

keeps steam out of the room and operators' faces.

advansys™

ADVANCED CLEANING PERFORMANCE

Low Chemical Alerts & Auto-Prime

Low chemical alerts help ensure consistent cleaning & sanitization, & built-in chemical pumps with auto-prime simplify chemical changes, with less handling of chemicals.

NSF Pot & Pan Rated Cycles

Plus the 17" Opening Height allow you to run single-rack operation & wash tough food soils off all your prep ware.

Easy to Clean

Spend less time cleaning with interchangeable, snap-in wash & rinse arms, a deluxe strainer, smooth seamless interior, & auto clean.

Auto Delime **advansys**[™]

Auto delime saves time & chemicals & reduces handling while maintaining peak machine performance.

Sense-a-Temp[™] Booster Heater

Helps ensure 180° sanitizing rinse on every cycle.

Make The Right Choice

Available in a high-temperature sanitizing (LXeH) or chemical sanitizing (LXeC) model. Advansys available on high-temperature models only (LXeR).

OWNERSHIP BENEFITS

Commercial Refrigeration Equipment General Specification

UCR-SERIES UNDERCOUNTER UNITS

Whenever space is a limiting factor and health inspection approval is critical, compact, shallow-depth refrigerators and freezers have provided the answer. Single door refrigerator and matching freezer are only 20" wide by 21" deep. Overall, height on 6" legs supplied is 31". Two-door companion refrigerator is 34" wide by 23" deep.

CABINET CONSTRUCTION

Models feature construction with stainless steel exteriors and anodized aluminum interiors.

Cabinets are insulated with 2" thick foamed-in-place polyurethane insulation for maximum energy conservation and structural integrity. Doors are mounted to cabinet on self-closing, cartridge style hinges with 120° stay open position. Doors are equipped with a snap-in-place vinyl magnetic gasket for positive seal. Convenient, double pull style door handle is made of black anodized aluminum. 6" high legs are standard. Cabinet interior standard with 2 steel wire epoxy coated shelves per section.

REFRIGERATION

Balanced refrigeration systems provide refrigerator holding temperatures of 35° to 38° range. Freezer model temperature is held at zero and below. Refrigerants used are R134a in the refrigerators and 404a in the freezer. Both are CFC free providing full compliance with environmental concerns. Interior forced-air system with high humidity evaporator coils, provides the ideal environment for food preservation.

ELECTRICAL

Units wired at factory and ready for connection to a 115/60/1 phase, 15 amp dedicated outlet. 8' long cord and plug set included.

SPECIAL FEATURES

- Cartridge style door hinges provides positive seal & eliminates door sagging issues (excludes glass door and some special units).
- Optional 3" or 6" casters available

HANDLE OPERATED COFFEE BREWER

CBS-5000 Series

CBS-52H-15

ITEM 4

Twin 1.5 Gallon Brewer

Shown with 1.5 Gallon LUXUS® Thermal Dispensers (L40-15)

The CBS-5000 Series was designed for simplicity. The Handle Operated Series brewers save the operator time and effort by delivering quick and consistent results from your pre-programmed coffee recipe. It is the reliable choice for serving high-volumes of single batch coffee all day long.

Handle operation — a quick start!

Simply twist the handle to begin the brew cycle and in minutes your perfectly brewed coffee is ready to serve.

Manual water faucet.

Safely dispense hot water away from steam and brew basket.

Set it and forget it.

Program your recipe once and this brewer delivers consistent and repeatable results.

ITEM 5

EVERPURE® QL3 BH² SYSTEM

DELIVERS PREMIUM QUALITY WATER FOR COFFEE APPLICATIONS

QL3-BH² System: EV9272-00
BH2 Replacement Cartridge: EV9612-50

APPLICATIONS

Coffee
Low-Flow, Medium-Volume Brewers

FEATURES • BENEFITS

Provides clear, fresh, premium quality ingredient water for great tasting coffee and beverages

Sanitary cartridge replacement is simple, quick and clean; internal filter parts are never exposed to handling or contamination

Engineered to always feed the correct amount of scale inhibitor into each volume of water

Proportioned scale inhibitor feed

Proprietary Everpure® Micro-Pure® II media inhibits the growth of bacteria

Precoat submicron technology reduces dirt and particles as small as 0.5-micron in size

Everpure's unique filter blend using activated carbon reduces chlorine taste & odor and other offensive contaminants

Increases holding time of coffee

Saves energy by reducing scale buildup.

Dramatically prevents limescale from forming in brewers

Reduces health contaminants such as cysts

INSTALLATION TIPS

Never use saddle valve for connection.

Use 3/8" water line.

Install vertically with cartridges hanging down.

Allow 2-1/2" (6.35 cm) clearance below the cartridge for easy cartridge replacement.

Flush BH² Cartridge by running water through filter for three (3) minutes at full flow.

OPERATION TIPS

Change cartridges on a regular six (6) month preventative maintenance program.

Change cartridges when capacity is reached or when pressure falls below 10 psi (0.7 bar).

Service flow rate must not exceed 0.5 gpm (1.9 Lpm).

Always flush the filter cartridge at time of installation and cartridge change.

SIZING

Service Flow Rate: Maximum 0.5 gpm (1.9 Lpm)

Rated Capacity: 3,000 gallons (11,350 L) or 6,000 pots

EVERPURE® QL3 BH² SYSTEM

EV9272-00

The contaminants or other substances removed or reduced by this drinking water system are not necessarily in your water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used with disinfected water that may contain filterable cysts.

ITEM 6

Metro SmartWall Double Shelf Support

SmartWall Double Shelf Supports are available in lengths to accommodate 14", 18", 21", and 24" wide shelving. Double shelf supports are designed join adjacent shelves in order to create side-by-side wall shelving units. Single Shelf Supports are required at each end of a side-by-side wall shelving system to hold shelves securely.

Shelf supports mount directly to SmartWall Uprights without the use of tools. Supports are designed to work with Super Erecta, Super Erecta Pro and MetroMax shelves. MetroMax 4 and MetroMax i shelves require one shelf adapter kit per shelf (sold separately).

SmartWall Double Shelf Supports come in your choice of Metroseal Green or Metroseal Gray finishes.

Our Metroseal epoxy coating is easy-to-clean and corrosion-resistant.

All Metroseal products include a Microban antimicrobial additive to help keep products cleaner in-between cleanings and make them easier to clean when the time comes.

Product Name	Metro SmartWall Double Shelf Support
UPC Code	0-41105-76464-0
Product Width	1.5"
Product Length	26.5625"
Product Height	8.1875"
Approximate Package Weight	3.2 lbs.
Material	Rust-Resistant Epoxy Coated Steel with Plastic Shelf Support Sleeve
Finish	Metroseal Green Epoxy
Color	Green

ITEM 7

Metro SmartWall Single Shelf Support

SmartWall Single Shelf Supports come in lengths to hold 14", 18", 21" and 24" wide shelves. They can be paired with SmartWall Uprights for an easy-to-adjust wall shelving system. Supports attach directly to uprights without the use of tools or additional hardware.

Single Shelf Supports are suitable for use with Super Erecta, Super Erecta Pro, and MetroMax shelves. Please note that MetroMax 4 and MetroMax i shelves require one shelf adapter kit per shelf (sold separately).

Shelves require two shelf supports to be appropriately held on the wall shelving unit.

Side-by-side wall shelving units can be created by combining Single Shelf Supports with a Double Shelf Support.

Uprights can be purchased in your choice of Metroseal Green or Metroseal Gray.

Metroseal epoxy finishes feature Microban antimicrobial product protection to help inhibit the growth microorganisms such as bacteria, mold and fungi that can cause odors, stains, and product degradation.

Single shelving supports are NSF-certified for use in wet foodservice environment.

Product Name	Metro SmartWall Single Shelf Support
UPC Code	0-41105-76561-6
Product Width	1.5"
Product Length	23.5625"
Product Height	8.1875"
Approximate Package Weight	2.9 lbs.
Material	Rust-Resistant Epoxy Coated Steel with Plastic Shelf Support Sleeve
Finish	Metroseal Green Epoxy
Color	Green

ICE STORAGE BIN SERIES

SF Bins
03/19/21
Item # 13163

SF - Stainless Steel Finish

Item #: _____
Project: _____
Qty: _____
AIA#: _____

Features

- ▶ Protected by H-GUARD Plus Antimicrobial Agent 
- ▶ Polyethylene bin liner for sanitary storage
- ▶ Sturdy construction for side-by-side or stacked ice machine installation

- Ice storage capacity from 250 lbs. up to 900 lbs.
- Both surfaces are designed for easy cleaning
- Long lasting attractive appearance
- Foamed-in-place polyurethane insulation, in all bin walls and bottom, provides dependable ice storage
- H-GUARD Plus Antimicrobial adds extra protection to the ice scoop (included)

SF - Stainless Steel Finish

BD Bins

- Fit 24" - 24 1/2" deep ice machine without top kit extension

Warranty:

2 Year Parts & Labor (Production prior to January 2012)
3 Year Parts & Labor (Production January 2012 and after)

EVERPURE® INSURICE® TWIN-i2000² SYSTEM

DELIVERS PREMIUM QUALITY WATER FOR ICE APPLICATIONS

Insurice Twin-i2000² System: EV9324-02
i2000² Replacement Cartridge: EV9612-22

APPLICATIONS

Ice Machines

- Cubers 1,450 lbs/day
- Flakers 2,200 lbs/day

FEATURES • BENEFITS

Reduces ice machine problems caused by scale buildup from dirt and dissolved minerals*

Sanitary cartridge replacement is simple, quick and clean. Internal filter parts are never exposed to handling or contamination

Reduces maintenance and service costs by reducing scale* and clogging of distribution lines, evaporator plate and pump

Exclusive precoat filtration provides superior chlorine taste & odor reduction and micro-filters dirt and particles as small as 0.5 micron in size by mechanical means

Proprietary Micro-Pure® II filtration media effectively inhibits the growth of bacteria on the filter media that can decrease product life

Reduces chlorine taste & odor and other offensive contaminants

Manifold features water shut-off, flushing valve and outlet pressure gauge

NSF/ANSI Standard 53 certified to reduce cysts such as *Cryptosporidium* and *Giardia* by mechanical means

*As tested by Pentair

INSTALLATION TIPS

Choose a mounting location suitable to support the full weight of the system when operating.

Never use saddle valve for connection.

Use 3/4" water line.

Do not connect system to water-cooled condenser.

Install vertically with cartridges hanging down. Allow 2-1/2" (6.35 cm) clearance below the cartridge for easy cartridge replacement.

Flush cartridges by running water through system for five (5) minutes at full flow.

OPERATION TIPS

Change cartridges on a regular six (6) month preventative maintenance program.

Change cartridges when capacity is reached or when pressure falls below 10 psi (0.7 bar).

Service flow rate must not exceed 3.34 gpm.

Always flush the filter cartridge at time of installation and cartridge change.

SIZING

INSULATED STAINLESS STEEL HOT CABINET MODEL H-137-SUA-12D

FEATURES AND BENEFITS:

- Fully insulated hot cabinet keeps prepared foods at serving temperatures.
- Powerful, yet efficient, 1500 Watt heating system maintains the right temperature to properly hold products. Heats up to 200°F (93°C).
- Standard solid state electronic control with large, clear, easy-to-read and operate LED digital display to ensure holding at precise food temperature.
- Internal frame in body maintains structural rigidity.
- Stainless steel construction throughout for ease of cleaning. One piece extended base protects cabinet body.
- Smooth interior coved corners prevent food particle/grease buildup.
- Safety-conscious anti-microbial latches protect against spreading germs.
- Field reversible insulated Dutch doors prevent temperature loss. Silicone door gaskets for proper seal.
- Standard with right hand hinging; left hand hinging available upon request.
- High temperature ceramic magnetic latches for "easy open"; twist-lock catch secures door during transport.
- Recessed push/pull handles on both sides prevent damage to walls; allows easy maneuvering.
- Twelve sets of chrome plated wire universal angles accommodate a large variety of pan sizes on adjustable 1-1/2" centers.
- Heavy duty 5" swivel casters, two with brakes. Provides mobility when fully loaded.

H-137-SUA-12D

Standard solid state electronic control with large, clear, easy-to-read and operate LED digital display to ensure holding at precise food temperature

ACCESSORIES and OPTIONS (Available at extra cost):

- ☐ Tempered Glass Door Windows
- ☐ Key Lock Handles
- ☐ Lock Hasp
- ☐ Extra Universal Angles
- ☐ Change from standard chrome plated wire angles to angles designed for transporting
- ☐ Corner Bumpers
- ☐ Perimeter Bumper
- ☐ Rear Push Handle
- ☐ Bail Handles
- ☐ Various Caster Options
- ☐ Removable Cord Set
- ☐ 208 or 240 Volt Service
- ☐ Upgrade to 2000 Watts Power Unit

See page B-30 for accessory details.

CABINET:

- Body: 22 ga. stainless steel.
- Reinforcement: Internal framework of 18 ga. stainless steel.
- Insulation: Fiberglass, thermal conductivity (K factor) is .23 at 75°F. 1-1/2" in doors, base top; 2" in sidewalls.
- Air tunnels: 22 ga. stainless steel; lift-out type, mounted on sides.
- Push/pull handles (2): 5" vertical; recessed.
- Interior coved corners.

BASE:

- One piece construction, .125 aluminum.
- Casters: 5" dia., swivel, modulus tires, 1-1/4 wide, load cap. 250 lbs. each, temp. range -45°/+180°F. Delrin bearings. Front casters equipped with brakes.

DUTCH DOORS:

- Field reversible.
- Formed 22 ga. stainless steel.
- Latches: Chrome plated zinc, high temperature ceramic magnetic type, mounted inboard.
- Transport Latches.
- Hinges: Heavy duty chrome plated zinc.
- Gaskets: Perimeter type, silicone.
- Pan stops: Embossed.

PAN SLIDES:

- Wire angles (.306 dia.), nickel chrome plated steel, mounted on lift-off posts.
- Spaced on 4-1/2" centers; adjustable on 1-1/2" centers.

MODEL CTB/CTBR

Half-Size Electric Convection Oven

OPTIONS AND ACCESSORIES (AT ADDITIONAL CHARGE)

- **Legs/casters:**
 - ☐ 4" (102mm) legs (not for use with stands)
 - ☐ 6" (152mm) casters
- **Stands:**
 - ☐ 5-3/4" (146mm) stainless steel stand
 - ☐ 7" (178mm) stainless steel stand
 - ☐ 16" (406mm) stainless steel stand
 - ☐ 19" (438mm) stainless steel stand with shelf
 - ☐ 24" (610mm) stainless steel stand with shelf
 - ☐ 33" (838mm) stainless steel stand with shelf
- ☐ Solid state digital with cook and hold, and Pulse Plus® with digital display
- ☐ Vent riser: stainless steel
- ☐ Cord set with receptacle
- ☐ 7.5 Kw elements
- ☐ Extra oven racks
- ☐ Oven Liner: Stainless steel

OPTIONS AND ACCESSORIES (AT NO CHARGE)

- ☐ Door Design: Solid stainless steel
- ☐ Right hand hinged door

ITEM
13

Project _____

Item No. _____

Quantity _____

Standard depth baking compartment - accepts 13" x 18" standard half-size baking pans in front-to-back-position. CTBR model follows same specifications as CTB, only with door opening on the right side and controls on left side.

All data is shown per oven section, unless otherwise indicated.

Refer to operator manual specification chart for listed model names.

EXTERIOR CONSTRUCTION

- Full angle-iron frame
- Stainless steel front, top, sides and back
- Dual pane thermal glass window encased in stainless steel door frame
- Single chrome plated door handle
- Tilt-down modular front control panel
- Solid mineral fiber insulation at top, back, sides and bottom

INTERIOR CONSTRUCTION

- Double-sided porcelainized baking compartment liner (14 gauge)
- Five chrome-plated racks, nine rack positions with a minimum of 1-5/8" (41mm) spacing

OPERATION

- Two tubular heaters (5kW)
- Solid state thermostat with temperature control range of 200°F (93°C) to 500°F (260°C)
- Two speed fan motor
- 1/4 horsepower blower motor with automatic thermal overload protection
- One control area cooling fan

STANDARD FEATURES

- Solid state manual with separate dials to control thermostat and time**
- Two year oven parts and one year labor warranty*
- Five year limited oven door warranty*

* For all international markets, contact your local distributor.

** For control panels other than standard consult your local international distributor for CE approvals.

CTB/CTBR DOUBLE

SHORT FORM SPECIFICATIONS

Provide Blodgett half-size convection oven model CTB/CTBR (single, double) compartment. Each compartment shall have (porcelainized/stainless) steel liner and shall accept five 13" x 18", standard half-size bake pans. Doors shall be (dual pane thermal glass/window/solid stainless steel door) with single chrome plated door handle. Stainless steel front, top, sides and legs. Unit shall be electrically heated with two or three tabular heaters dependent on wattage (5 or 7.5 kW) selection. Air in baking chamber distributed by blower wheel powered by two-speed, 1/4 horsepower motor with thermal overload protection. Each chamber shall be fitted with five chrome plated removable racks, and have nine rack positions. Control panel shall be recessed with Cook/Cool Down mode selector, solid state (manual/digital) infinite thermostat (200°-500°F), and 60-minute timer. Provide options and accessories as indicated.

THE Söta™

PERFORMANCE

Utilizing TurboChef's patented technology to rapidly cook food without compromising quality, the Söta provides superior cooking performance while requiring less space and consuming less energy.

VENTILATION

- UL (KNLZ) listed for ventless operation.†
- EPA 202 test (8 hr):
 - Product: Pepperoni Pizzas
 - Results: 0.64 mg/m³
 - Ventless Requirement: <5.00 mg/m³
- Internal catalytic filtration to limit smoke, grease, and odor emissions.

1. Blower Motors
2. Microwave System
3. Stirred Impinged Air (Top) and Microwave
4. Impinged Air (Bottom)
5. Catalytic Converter
6. Impingement Heater
7. Vent Tube Catalyst
8. Air Filter
9. Inlet Air for Cooling Electronic Components

Project _____

Item No. _____

Quantity _____

EXTERIOR CONSTRUCTION

- Powder coated, corrosion-resistant steel outer wrap and door
- Die-cast aluminum front panels with matte-chrome accents
- Cool-to-touch exterior; all surfaces below 50°C
- Ergonomic matte-chrome door handle
- 4-inch adjustable legs

INTERIOR CONSTRUCTION

- 201/304 stainless steel
- Fully welded and insulated cook chamber
- Removable rack and lower jetplate

STANDARD FEATURES

- Independently-controlled dual motors for vertically-recirculated air impingement
- Top-launched microwave system
- Stirrer to help ensure even distribution of air and microwave
- Integral recirculating catalytic converter for UL (KNLZ) listed ventless operation
- External air filtration
- Vent catalyst to further limit emissions and odors
- LED timer counts down last 30 seconds of cook time
- Smart menu system capable of storing up to 256 recipes
- Flash firmware updates via smart card
- Single or dual-temperature interface
- Field-configurable for single or multiphase operation (requires service call)
- Self-diagnostics for monitoring oven components and performance
- Smart Voltage Sensor Technology* (U.S. only)
- Stackable (requires stacking stand)
- Includes plug and cord (6 ft. nominal)
- Warranty – 1 year parts and labor

COMES WITH STANDARD ACCESSORIES

- 1 Bottle Oven Cleaner (103180)
- 1 Bottle Oven Guard (103181)
- 2 Trigger Sprayers (103182)
- 2 Solid Aluminum Pans (i1-9496)
- 1 Aluminum Paddle (i1-9716)

This product conforms to the ventilation recommendations set forth by NFPA96 using EPA202 test method.

* Smart Voltage Sensor Technology does not compensate for lack of or over voltage situations. It is the responsibility of the owner to supply voltage to the unit according to the specifications on the back of this sheet.

† Ventless certification is for all food items except for foods classified as "fatty raw proteins." Such foods include bone-in, skin-on chicken, raw hamburger meat, raw bacon, raw sausage, steaks, etc. If cooking these types of foods, consult local HVAC codes and authorities to ensure compliance with ventilation requirements.

Ultimate ventless allowance is dependent upon AHJ approval, as some jurisdictions may not recognize the UL certification or application. If you have questions regarding ventless certifications or local codes, please email ventless.help@turbochef.com

GURP-S Undercounter/Worktable

Coolsapes™ Undercounter/Worktable refrigerator with S/S doors

Models

- GUR24P-S Undercounter/Worktable Refrigerator, 24" L x 31.5" D x 36" H, S/S Door
- GUR27P-S Undercounter/Worktable Refrigerator, 27" L x 31.5" D x 36" H, S/S Door
- GUR32P-S Undercounter/Worktable Refrigerator, 32" L x 31.5" D x 36" H, S/S Door
- GUR48P-S Undercounter/Worktable Refrigerator, 48" L x 31.5" D x 36" H, S/S Door
- GUR60P-S Undercounter/Worktable Refrigerator, 60" L x 31.5" D x 36" H, S/S Door
- GUR72P-S Undercounter/Worktable Refrigerator, 72" L x 31.5" D x 36" H, S/S Door

GUR48P-S

Standard Features

- Durable, rugged stainless steel top and front
- Smart door hinge that auto closes up to 90 degrees and stays open past 90 degrees. 180 degree door opening
- Environmentally friendly R290 refrigerant
- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane keeps energy costs low
- Integral door/drawer handle
- 5" (two locking, two non-locking) casters shipped loose for field installation
- 8' cord and plug supplied
- Gray epoxy coated shelves (1 per section) with pins
- Electronic temperature control
- Energy-efficient door gasket removable without tools
- Field rehingable doors
- 100% front breathing-clearance not required on top/sides
- Three year parts and labor warranty and an additional two year compressor parts warranty

Options & Accessories

- Cutting boards (composite or poly)
- 18" wide single or double tier
- Overshelf
- Stainless steel finish on back
- Laminate
- Additional shelves
- Door lock (door models only)
- Exterior thermometer
- Energy-saving LED interior light
- Lower height casters
- 6" black legs
- 6" flanged feet
- Stacking collar on single section units
- 18-gauge heavy duty top
- Condenser filter
- Glass doors
- Drawers
- Stainless steel ends
- On/Off master switch
- Stainless steel pilasters with shelf clips

Specifications

Exterior top is one-piece, stainless steel with integral 2.12" (5.4cm) square nosing on the front.

Exterior back and bottom is galvanized steel. Exterior ends are mill finish aluminum.

Interior sides are gray coated aluminum. Interior bottoms are anodized aluminum. Base is fully insulated with high-density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane.

Refrigeration system uses R290 refrigerant. Compressor is 1/5 H.P., with condenser coil and hot gas condensate evaporator mounted on rear of the cabinet. Evaporator coil is located on the interior rear wall of the cabinet. Refrigerant flow is controlled by a capillary tube. Cabinet maintains an interior cabinet temperature of 33°F to 40°F (2°C to 4°C).

System is controlled using an electronic temperature control which provides improved pull-down times, reducing compressor cycling and longer compressor life with lower energy consumption. Control system uses adaptive defrost to assure evaporator coil is free of ice and operating at optimum efficiency. Evaporator condensate is eliminated using an energy-efficient hot gas system.

Digital exterior temperature display is located on the back of the cabinet.

Electrical connection is 115 volt, 60 Hertz, single phase. Unit has a 8' (2.4m) long electrical cord and NEMA 5-15P plug.

Casters: 5" (13cm) diameter plate casters shipped loose with front two locking. Equipment clearance above the floor is 6.2" (15.7cm).

Door has a stainless steel exterior, with thermoformed ABS plastic interior liner.

SCOTSMAN'S NEW NUGGET ICE MACHINES with AutoSentry™

- **AutoSentry™** Monitoring System constantly checks workload on gearbox shutting down system before a problem develops preventing costly repairs.
- Electrical conductivity water sensor eliminates low or no water failures and cannot be affected by adverse water conditions.
- Plastic drain pan with larger outlet provides greater ability to quickly channel water away preventing particulate build-up and rust.
- Rust and restriction free drain system features one-piece plastic drain tubes with larger ID for obstruction-free water flow.
- Durable, high grade stainless steel construction with massive, self-aligning spherical roller bearings; patented double-flight auger that evenly distributes the load; and heavy duty direct drive gearbox for high reliability and long life.

WARRANTY See your dealer for complete warranty details.

- 3 years parts on all components.
- 3 years labor on all components.
- 5 years parts on compressor.

Scotsman's ice machines are not designed for outdoor installations. Scotsman remote condensers are designed for outdoor installations.

Machine requires voltage indicated on rating name plate. Failures caused by improper voltage are not considered factory defects. Extended periods of operation at temperatures exceeding limitations constitutes misuse under the terms of Scotsman Manufacturer's Limited Warranty, resulting in a loss of warranty coverage. Specifications and design are subject to change without notice.

(0.0cm) (0.0cm) (0.0cm)

- Available Serving Rack and Booster takes advantage of open counter-to-ceiling layouts while also freeing space for a variety of beverages stations or configurations
- Low profile design fits into height-restricted layouts and is more manageable to transport
- Reinforced edges stand up to the demands of busy serving environments
- Front – back handles maximizes counter space usage, built in back lower handle for easy emptying and cleaning
- Lid included
- Ships with full-color iced tea decal
- Sump dispense valve assures complete dispensing
- Two dispensers, placed side-by-side, allow added flexibility in menu options within the same footprint as one cylinder or oval dispenser

HANDLE OPERATED COFFEE BREWER

ITEM 19

CBS-5000 Series

CBS-52H-15

Twin 1.5 Gallon Brewer

Shown with 1.5 Gallon LUXUS® Thermal Dispensers (L4D-15)

The CBS-5000 Series was designed for simplicity. The Handle Operated Series brewers save the operator time and effort by delivering quick and consistent results from your pre-programmed coffee recipe. It is the reliable choice for serving high-volumes of single batch coffee all day long.

Handle operation — a quick start!

Simply twist the handle to begin the brew cycle and in minutes your perfectly brewed coffee is ready to serve.

Manual water faucet.

Safely dispense hot water away from steam and brew basket.

Set it and forget it.

Program your recipe once and this brewer delivers consistent and repeatable results.

GRINDER R 2.2

Performance
This unit's powerful .5 HP motor and precision slice grinding discs help deliver uniform grind profiles every time.

Portion Control
The GR-2.2 dual hopper coffee grinder is portion controlled so you grind only the amount you need.

Convertible
Removable 5 lb hoppers allow operators to change coffee bean selection without spilling or the cost of additional grinders.

The GR-2.2 dual hopper coffee grinder is portion controlled so you grind only the amount you need. Choose from two different batch sizes with the touch of a button. This unit's powerful .5 HP motor and precision slice grinding discs help deliver uniform profiles every time.

Dual hoppers are simple to remove, and allow for versatility in your production offerings. This unit comes with a brew basket holder for larger batches and hoppers with lids. If you have a high volume location, you won't go wrong with this grinder.

GURP-G Undercounter/Worktable

Coolscares™ Undercounter/Worktable refrigerator with glass doors

GURP-G Undercounter/Worktable

Models

- GUR24P-G Undercounter/Worktable Refrigerator, 24" L x 31.5" D x 36" H, Glass Door
- GUR27P-G Undercounter/Worktable Refrigerator, 27" L x 31.5" D x 36" H, Glass Door
- GUR32P-G Undercounter/Worktable Refrigerator, 32" L x 31.5" D x 36" H, Glass Door
- GUR48P-G Undercounter/Worktable Refrigerator, 48" L x 31.5" D x 36" H, Glass Door
- GUR60P-G Undercounter/Worktable Refrigerator, 60" L x 31.5" D x 36" H, Glass Door
- GUR72P-G Undercounter/Worktable Refrigerator, 72" L x 31.5" D x 36" H, Glass Door

GUR48P-G

Standard Features

- Durable, rugged stainless steel top
- Smart door hinge that auto closes up to 90 degrees and stays open past 90 degrees. 180 degree door opening
- Environmentally friendly R290 refrigerant
- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane keeps energy costs low
- Integral door/drawer handle
- 5" (two locking, two non-locking) casters shipped loose for field installation
- 8' cord and plug supplied
- Gray epoxy coated shelves (1 per section) with stainless steel pilaster and shelf clips
- Electronic temperature control
- Energy efficient door gasket removable without tools
- Energy-saving LED interior light
- Field rehingable door
- 100% front breathing-clearance not required on top/sides
- Three year parts and labor warranty and an additional two year compressor parts warranty

Options & Accessories

- Cutting boards (composite or poly)
- 18" wide single or double tier overshef
- Stainless steel finish on back
- Laminate
- Additional shelves
- Door lock (door models only)
- Exterior thermometer
- Lower height casters
- 6" black legs
- 6" flanged feet
- Stacking collar on single sections
- 18-gauge heavy duty top
- Condenser filter
- Stainless steel door
- Drawers
- Stainless steel ends
- On/Off master switch

Specifications

Exterior top is one-piece, stainless steel with integral 2.12" (5.4cm) square nosing on the front.

Exterior back and bottom is galvanized steel. Exterior ends are mill finish aluminum.

Interior sides are gray coated aluminum. Interior bottoms are anodized aluminum. Base is fully insulated with high-density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane.

Refrigeration system uses R290 refrigerant. Compressor is 1/5 H.P., with condenser coil and hot gas condensate evaporator mounted on rear of the cabinet. Evaporator coil is located on the interior rear wall of the cabinet. Refrigerant flow is controlled by a capillary tube. Cabinet maintains an interior cabinet temperature of 33°F to 40°F (2°C to 4°C).

System is controlled using an electronic temperature control which provides improved pull-down times, reducing compressor cycling and longer compressor life with lower energy consumption. Control system uses adaptive defrost

to assure evaporator coil is free of ice and operating at optimum efficiency. Evaporator condensate is eliminated using an energy-efficient hot gas system.

Digital exterior temperature display is located on the back of the cabinet.

Electrical connection is 115 volt, 60 Hertz, single phase. Unit has a 8' (2.4m) long electrical cord and NEMA 5-15P plug.

Casters: 5" (13cm) diameter plate casters shipped loose with front two locking. Equipment clearance above the floor is 6.2" (15.7cm).

Glass doors are double-pane argon filled, low E tempered glass. Frame is constructed of black extruded PVC with recessed vertical pocket handle. Hinge is an internal cartridge-style, self-closing with 90-degree, hold-open feature. Gasket is black energy profile magnet with push-in dart style that is removable without tools. Lock is keyed and mounted in the shroud which engages into the lock pocket in the top of the door.

Models

- 407P Undercounter freezer single section on legs
- 407-CAP Undercounter freezer single section on casters

Model 407-CAP

Standard Features

- Features Delfield's exclusive ABS interior. ABS is extremely durable - it won't dent, chip or corrode and is backed by a limited lifetime warranty
- Stainless steel front and sides
- One epoxy coated wire shelves
- Environmentally friendly R290 refrigerant
- Foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane cuts energy costs
- Black recessed quick grip handle
- Rugged 6" high heavy duty metal legs (model 407P only). Units with a "CA" suffix are standard on 3" diameter (3.75" ride height) casters
- All units come standard hinged right and may be changed at the factory at no charge. Indicate when order is placed
- 6' cord and plug supplied
- Interior thermometer
- Three year parts and labor warranty and an additional two year compressor parts warranty
- Stainless steel back

Options & Accessories

- Plastic laminate on front
- Additional shelf
- Stainless steel single-tier overshef
- 2" diameter (2.5" ride height) casters
- 5" diameter (6" ride height) casters
- Model 409 stacking collar
- Door lock

Specifications

Exterior bottom shall be heavy-gauge galvanized metal. Exterior ends shall be heavy-gauge stainless steel.

Base interior shall be one-piece thermoformed ABS plastic material, with integral shelf supports. ABS interior is backed by a limited lifetime warranty. Base shall be fully insulated with high-density foamed-in-place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane.

Door shall have a heavy-gauge stainless steel exterior, with a thermoformed ABS plastic interior liner, and shall be fully insulated. Door handle shall be black, recessed ABS. Cabinet shall have (1) adjustable epoxy-coated wire shelves installed.

REFRIGERATION SYSTEM: Freezer system shall use R290 refrigerant. Compressor shall be 1/5 h.p., with condenser coil, hot gas condensate evaporator and temperature control mounted on rear of cabinet. Evaporator coil shall be mounted on the interior rear wall of the cabinet. Refrigerant flow shall be controlled by a capillary tube. Cabinet shall maintain -5°F to 0°F (-21°C to -18°C) interior cabinet temperature.

System is controlled using Delfield's ACT-Advanced Control Technology electronic temperature control, which provides improved pull down times, reduces compressor cycling and longer compressor

life with lower energy consumption.

Electrical connections shall be 115 volt, 60 Hertz, single phase. Unit shall have a 6' (1.8m) long electrical cord and NEMA 5-15P plug. Cord and plug shall be located on rear of cabinet, 16" (40.6cm) above floor, 5" from the left side.

407P: Equipment is shipped with loose 6" (15.2cm) high metal legs with black enamel finish unless mounting is specified on original sales order. Exterior top shall be one-piece, heavy-gauge stainless steel with front edge turned down to form nosing and rear edge turned down.

407-CAP: Equipment is shipped with loose 3" diameter (3.75" ride height) casters high casters (two locking and two non-locking) unless mounting is specified on original sales order. Exterior top shall be one-piece, heavy-gauge aluminum with all edges turned down.

SWIFT GRINDER TECHNOLOGY
grind, dose, and tamp
with one touch

burrs: **64mm, flat**
hopper capacity: **4lb (x2)**
grind speed*: **7 sec**
* approx. time per 18g dose

The Swift grinder offers highly accurate volumetric dosing and tamping, repeatedly dosing to within a fraction of a gram. Flat ceramic burrs ensure minimal heat buildup while grinding, and the dual-hopper design makes the Swift an ideal grinder for high-volume café locations aiming to improve consistency and reduce waste.

SALES INQUIRIES 206-706-9104 (Option 3) info.usa@lamarzocco.com www.lamarzoccousa.com

Equipped with proprietary La Marzocco electronics and advanced temperature stability, the GB5 S combines classical European design with cutting edge performance. The machine has been modernized since its original release in 2005 and is an elegant companion to any coffee bar. The two red lilies on the side shields recall the company's Florentine heritage, while partially exposed groups offer a streamlined barista working experience. The machine provides the barista control over boiler temperature, brewing volume, hot water tap dose, automatic cleaning cycles and more to keep high quality coffee flowing even during the busiest hours.

classic italian design

The gracious lines and harmonious curves of the GB5 S speak to the La Marzocco heritage of design and intention. The understated side shields, elegant Florentine lily, subtle insignia of il marzocco on the cup rail and more combine to give this machine the feel of an heirloom built to stand the test of time.

engineering

dual PID (coffee & steam)

Allows you to electronically control coffee & steam boiler temperatures.

piero group caps

Re-engineered internal water path that increases temperature stability.

dual boilers

Separate boilers optimize espresso brewing and steam production.

auto backflush

Simplifies the cleaning process to improve efficiency.

ruby flow restrictors

Ruby flow restrictors resist scale formation and erosion.

performance touch steam wands

Vacuum-insulated double-walled steam wands remain cool to the touch while delivering high volume dry steam.

ergonomics

dimnable barista lights

3-stage LED lights for eco, on, and brewing modes allows you to focus on your extraction and the cup. Not dimmable in EE configuration.

easy rebuild steam valve

Engineered so the valve can be serviced directly from the front of the machine without needing to be removed.

partially exposed groups

Improved workspace visibility for streamlined barista workflow.

personalized color

Customizable colors based on the RAL color system on request.

options

Available Models

2, 3 or 4 groups.

Available Configurations

Semi-Automatic (EE), Auto-Volumetric (AV), AV with Scales (ABR).

Personalized Colors & Finishes

Customizable colors based on the RAL color system, on request.

JOIN THE CONVERSATION

EV9100-94

SO-24 System

Softening System for espresso applications

SO-24 Espresso System with Softening
Cartridge: EV9100-94

SO-204 Softening Cartridge: DEV9105-45

BENEFITS

20" large capacity softening system for espresso machines reduces scale-forming minerals like calcium and magnesium

Reduces scale forming minerals by ion exchange

May be used on water having up to 30 grains per gallon (500 mg/L) hardness

Useful where full size water conditioners are impractical

Includes mounting bracket, pressure relief valve and filter wrench

Recommended to be used in conjunction with an Everpure filtration system

INSTALLATION TIPS

Choose a mounting location suitable to support the full weight of the system when operating

Use 1" water line

Install vertically with bowl hanging down

Allow 2-1/2" clearance below the cartridge for easy cartridge replacement

Flush cartridges by running water through for one minute at full flow

Make sure O-ring on bowl is sufficiently lubricated

Always screw on bowls by hand; Do not use a housing wrench

OPERATION TIPS

Change cartridges on a regular 6 month preventative maintenance program

Change cartridges when hardness of treated water increases to more than 3 gpg

Service flow rate must not exceed 2.0 gpm

Always flush the cartridge at time of installation and cartridge change

To determine cartridge life, divide total capacity of cartridge (4,400 grains) by the hardness in grains per gallon (gpg) or milligrams per liter (ppm), respectively

APPLICATION/SIZING

For commercial espresso, specialty coffee and ice tea machines

4,500 grain softening capacity

Divide cartridge grain capacity by grains per gallon in influent water to calculate total gallons product water

S0-24 System

SPECIFICATIONS

Overall Dimensions:

24"H x 8"W x 7"D

Inlet connection: 1"

Outlet connection: 1"

Service Flow Rate:

Maximum 2.0 gpm (7.6 Lpm)

Pressure Requirements:

10 - 125 psi (0.7 - 8.6 bar), non-shock

Temperature:

35 - 100°F (2 - 38°C)

No electrical connection required

Shipping Weight: 21 lbs.

WARRANTY

Everpure water treatment systems (excluding replaceable elements) are covered by a limited warranty against defects in material and workmanship for a period of five years after date of purchase. Everpure replaceable elements (filter cartridges and water treatment cartridges) are covered by a limited warranty against defects in material and workmanship for a period of one year after date of purchase. See printed warranty for details. Everpure will provide a copy of the warranty upon request.

1. 11 3/8" TALL, FULL WIDTH OF CASE OPENING IN CABINET OR COUNTER IS REQUIRED TO PULL OUT REFRIGERATION SYSTEM.
2. BACK OF COUNTER / CABINET MUST BE VENTED PROPERLY FOR ADEQUATE AIRFLOW TO CONDENSER.
3. **REPRESENTS REAR PULLOUT REFRIGERATION. AIR FLOW INTAKE AND EXIT DETAILS ARE REVERSED WITH FRONT PULLOUT REFRIGERATION OPTION.
4. SELF-CONTAINED ACCESS ONLY BY PULLING OUT CONDENSER UNIT.
5. 4" OPEN AREA CLEARANCE REQUIRED FOR AIR FLOW FRONT AND REAR OF CASE.

NOTE: ALL DIMENSIONS APPROXIMATE

**ELECTRICAL JUNCTION BOX
(SUPPLIED WITH 6" LEADS OR POWER CORD).
LOCATION OF DRAIN TUBE FOR REMOTE REF.
ONLY (SUPPLIED WITH $\frac{3}{4}$ " OR $1\frac{1}{2}$ " PVC TUBE).**

REFRIGERATION LINE CONNECTION.
REMOTE FLOOR SINK & UTILITIES
ACCESS AREA.

SELF-CONTAINED CASE SERVICE ACCESS AREA

DRY CASE SERVICE ACCESS AREA.

Super Erecta® Wire Shelving Starter and Add-on Units.

- **Starter Units:** Include Chrome-plated, Brite (Chromate), or Metroseal 3 shelves and (4) posts under one easy-to-order model number.
- **Add-on Units:** Include (2) posts, shelves, and S-hooks to connect a unit end-to-end or at a right angle under one easy-to-order model number.
- **Corner (Right Angle) Units:** allow easy access to the shelf contents by eliminating a front post.
- **Unique Design:** The open wire design of these shelves minimizes dust accumulation and allows free circulation of air, greater visibility of stored items and greater light penetration.
- **Durable Construction:** Super Erecta shelves and posts are constructed of heavy-gauge carbon steel.
- **Choice of Finishes:** Super Erecta Brite™ and chrome-plated for dry storage; Metroseal 3™ with Microban® antimicrobial product protection for wet or corrosive environments.
- **Versatile:** Super Erecta Shelf® wire shelving can adapt to your changing needs. By using various accessories, hundreds of shelving configurations become possible.
- **Fast, Secure Assembly:** SiteSelect™ Posts have a double groove visual guide feature every 8" (203mm), circular grooves at 1" (25mm) increments, and are numbered at 2" (50mm) intervals. A patented, tapered split sleeve snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves providing a positive lock. Shelf is assembled in minutes without the use of any special tools.
- **Strong:** Stationary units hold a maximum of 2,000 lb. (910kg). Maximum weight capacity per shelf evenly distributed: (48" [1219mm] or shorter = 800 lb. [363kg]; longer than 48" [1219mm] = 600 lb. [272kg])
- **Adjustability:** Shelves can be adjusted at 1" (25mm) intervals along the entire length of the post.
- **Shelf Ribs:** run front to back, allowing you to slide items on and off shelves smoothly.
- **Shelf Accessibility:** Shelves can be loaded/unloaded easily from all sides. This open construction allows maximum use of storage cube.
- **Adjustable Feet:** Bolt levelers compensate for surface irregularities.

Solid Door Refrigerator

Reach-In Top Mount
M3 Series

FEATURES & BENEFITS

Self-Cleaning Condenser

The accumulation of dust in the condenser can cause the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products inside. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

Digital temperature control & monitor system

- Keeps food products safe by maintaining constant temperatures
- Alarms that sound when doors are not sealed shut; protect against food spoilage that originates from cold air leaks
- Early warning alarm program detects issues before malfunction occurs
- Digital display allows for easy monitoring.
- Programs interpret the condition of refrigeration systems by self-diagnosis
- Rapid cool-down function (Turbo cooling)
- Automatic evaporator fan motor delays

Hydrocarbon refrigerants (R-290)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

Hot gas condensate system

Through Turbo Air's creative innovation, the condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but also thoroughly prevents the overflow of condensate water.

Stainless steel exterior

The Turbo Air M3 refrigerator model boasts a stainless steel exterior (galvanized steel top, bottom and back) and AL interior with stainless steel floor. It guarantees the utmost in cleanliness and long product life. Sharp corners and edges have been rounded to reduce the risk of injury. The M3 adds a touch of style to the most refined setting.

Door pressure release device

Pressure relief doors are designed to eliminate vacuum pressure and allow easy, instant door opening.

LED interior lighting

Adjustable, heavy duty, PE (polyethylene) coated wire shelves

High-density polyurethane insulation

The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.

Top mount compressor

Model : M3R47-2-N
M3R47-2-N-AL(-AR)

Patented Self-Cleaning Condenser

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

Refrigerator holds 33°F ~ 38°F for the best in food preservation

- M3R47-2-N: Left hinged + Right hinged
- M3R47-2-N-AL: All left hinged
- M3R47-2-N-AR: All right hinged

■ WARRANTY : 5 Year Parts and Labor Warranty 7 Year Compressor Warranty

■ STANDARD FEATURES

- Anti-corrosion coated evaporator
- Self-contained system
- Standard 4" dia. swivel casters with locks on the front set
- Door locks standard
- Magnetic door gaskets
- Solid and sturdy grille design

■ OPTIONAL ACCESSORIES

- 5" caster, 1/2" diameter & 13 TPI: M726500100 (non-brake), M726500200 (w/ brake)
- 6" stainless steel leg: 30221M0600
- Additional PE coated wire shelf: G8F1800101
- Half door bun tray rack: TSP-2224 (each holds up to six 18"L x 26"D sheet pans)
- Full door bun tray rack: TSP-2250 (each holds up to fifteen 18"L x 26"D sheet pans)

BIDDING REQUIREMENTS for PURCHASING

NOTICE AND INFORMATION FOR BIDDERS

Attachment C: Scope of Work and Site Logistics

Furnish, deliver, and provide inside delivery of Kitchen Equipment. Inside Delivery includes unbox or uncrate, set-up, assemble and make ready for use. All debris should be removed from the premises and warranty information should be turned over to the Owner's Representative.

DORMITORY AUTHORITY- STATE OF NEW YORK
515 BROADWAY
ALBANY, NY 12207

SUNY – Fashion Institute of Technology
2943109999

A. **Project Overview:**

1. Construction of a new 10 story academic building at FIT
2. The project is located at:220 West 28th Street, Manhattan, NY 10001
3. This project is covered by a Project Labor Agreement (PLA). The PLA has been provided to all vendors in the Request for Quotation documents.

B. **Site Visit, Conditions and Logistics:**

1. All vendors are responsible for scheduling a site visit to assess logistical delivery issues and site conditions. DASNY shall presume all vendors have visited the project site and verified existing field conditions. All visits must be coordinated with the DASNY's FFE Consultant - Hoffman & Associates (Christina Cappetti christina@rlhai.com cell # (516) 924-0143).
2. Each vendor shall be responsible for assessing all site logistics, including appropriate truck size, loading dock conditions and gate availability, and shall be responsible for providing and fitting equipment in locations, as required. All vendors shall assume full responsibility for all equipment and accessories required to unload furniture and/or equipment at the dock.
3. If the site is still under construction at the time of delivery and/or installation, all workers entering the site must wear the required Personal Protective Equipment (PPE) including safety vests, hard hats, work boots, etc., in accordance with OSHA and other authorities having jurisdiction.
4. All loading dock and/or elevator usage must be coordinated with DASNY/Hoffman/Legacy.

C. **Dock and Site Restrictions:**

1. The loading dock cannot accommodate tractor trailers.
2. Vendors will be required to have a truck with a liftgate for deliveries.
3. There are multiple 3'-0" doors in each hall that can be used to move material around.

DORMITORY AUTHORITY- STATE OF NEW YORK
515 BROADWAY
ALBANY, NY 12207

SUNY – Fashion Institute of Technology
2943109999

4. Vendors shall provide flagmen with vests during deliveries to direct pedestrian and vehicular traffic, as required.
5. **Dumpsters are not available on-site.** Vendors shall be responsible for daily removal of debris off site. All vendors shall be responsible for obeying all site rules and established protocol.
6. Installation work shall include unloading, unpacking and delivering to respective floor locations.

D. Elevator Information:

1. Passenger Elevator
 - Cab Interior: 6'-8" Wide x 5'-4" Deep x 9'-0" High
 - Doorway: 42" Wide x 96" High
 - Capacity: 3,500 LBS

Vendors are responsible for confirming the dimension of the elevator cabs and doors before delivery.

2. At delivery, the vendor will be provided with previously scheduled use of the two small hydraulic passenger elevators.
3. Elevator protection: Completed by moving company prior to deliveries.

E. Building Protection:

1. A moving company shall be responsible for the protection of all access and work areas, including, but not limited to walls, doors, floors, etc. The vendor will be held responsible for the repair or replacement of any damage to the building, grounds, walls, and flooring due to the delivery and installation of the product.
2. All delivery paths (walls, etc.) will be protected and maintained, with paper and masonite. The utilization of steel-wheel dollies is prohibited.
3. Furniture/Equipment Protection: All furniture/equipment work surfaces shall be protected after installation is completed. The work surface protection shall be removed by others at a later date.

F. Delivery Schedule:

1. All deliveries shall occur on weekdays from 7:00am to 3:30pm unless otherwise scheduled with DASNY/Hoffman/Legacy.
2. The Vendor shall be responsible for coordinating permitting for their deliveries in the street as required
3. The Vendor shall be responsible for coordinating exact delivery dates and times with the Hoffman & Associates. Only products that can be immediately installed in a completed space shall be delivered, to avoid staging and on-site storage. The Vendor shall be responsible for temporarily storing materials in a secure warehouse for a period of up to 30 days from DASNY's requested delivery date at no additional cost. The Vendor shall be responsible for the rejection of product delivery, replacement, repair or any other corrective action required, for items received damaged, soiled or not conforming to the detailed specifications.

G. Tentative Fixtures, Furniture and Equipment Delivery Schedule:

1. Installation of furniture is anticipated to begin in August 2023.
2. Installation of fixtures and equipment can begin as indicated in the Request for Quotation and/or Invitation for Bid.
3. It is anticipated that delivery and installation will be completed in a phased approach, top down in the building. The current plan is:
 - Floor 9
 - Floors 6 – 8
 - Floor 5
 - Floors 2 – 4
 - Floor 1 and Cellar

Note: Work must be completed by October 1, 2023.

H. Supervision:

1. A full-time Coordinating Project Manager and a minimum of one (1) Coordinating Superintendent/Foreman per floor shall be engaged while delivery and installation work are performed.

DORMITORY AUTHORITY- STATE OF NEW YORK
515 BROADWAY
ALBANY, NY 12207

SUNY – Fashion Institute of Technology

I. Parking:

1. On-site parking is NOT available.

J. Punch list:

1. Each vendor is responsible for contacting Hoffman & Associates at the end of each workday to review project status and obtain sign-off for daily work.
2. The furniture/equipment vendor shall schedule a punch list review with Hoffman & Associates. DASNY reserves the right to withhold 5% payment pending resolution of open punch list items.

K. SECURITY REQUIREMENTS

1. Hoffman & Associates will control access to the facility. Vendors are responsible to share names and contact information for all individuals that will be onsite no later than 2:00pm the day prior to arrival to be shared with Campus Security.
2. All Contractors shall submit Daily Reports to Hoffman & Associates (Christina Cappetti christina@rlhai.com) by 10:00 am the following day. Daily Reports are to record, at the minimum, the date, temperature, weather conditions, number of workforce, subcontractors, work activities and location, and special observations. Submission of Daily Reports to Hoffman & Associate will be a condition of monthly payments to the Contractor.
3. Current FIT COVID protocol requires all onsite vendors to be vaccinated and wear a mask.

L. SPECIAL PROVISIONS

1. This is a designated Hard Hat Project.
2. There shall be no eating in the work area.
3. Smoking and vaping are not permitted in the building, near air intakes, or within 30 feet of any building entrance or outdoor-air intakes.
4. Use of alcohol and controlled substances on the project site is not permitted.

DORMITORY AUTHORITY- STATE OF NEW YORK
515 BROADWAY
ALBANY, NY 12207

SUNY – Fashion Institute of Technology
2943109999

5. Contractors are to comply with SUNY/FIT's Rules/Regulations for Vendors and Contractors.
6. No signs or advertising material will be permitted on the job site.
7. All provisions of all applicable State Labor Standards must be complied with under provisions of this contract. In addition to the PLA agreement.
